COMPANY INTRODUCTION

Showerplus, which has only walked one path for 18 years
Showerplus opens up a new future by leaping vigorously today as well.

‘Professional and unrivaled technology in water’

Showerplus is a Korean manufacturer specializing in filter showers that has developed a shower water filter device (Patent No. 10-788052) that can be identified by eyes for the first time in Korea and abroad. Since its establishment in 2004, we have been focusing on the essence of purifying water, the source of life, and is focusing on continuous research and technology development. Based on its professional and unrivaled domestic technology, it has gained great popularity in the domestic market as well as overseas market.

Company Overview

Corporate name	Shower Plus Co., Ltd	website	www.showerplus.co.kr
CEO	Oh Kyo-sun	Online	www.aquaduo.co.kr
Date of establishment	February 2004	phone	+82-1833-3808
Major project	Water Purification Filter Manufacturing	Fax	+82-31-574-3073
Brand	Aquaduo	e-mail	office@showerplus.co.kr
Number of employees	30 people	Location	58-15 Yangjin-ro 926beon-gil, Jinjeop-eup, Namyangju-si, Gyeonggi-do, Republic of Korea

ESG Management Strategy and Main Practical Task

Reinforcement the social role for sustainable

Environment

Eco-friendly management

Increase the purchase ratio of eco-labeling products
Reducing toxic substance such as carbon and greenhouse gas
Reduce energy use and improve efficiency
Effort of decreasing filter waste

Social

Socially responsible management

Improvement of employee and customer satisfaction
Industrial accident management and improvement of employee welfare
Expansion and reinforcement of social contribution business
Expanding the production of products by social and disabled company

Governance

Transparent management

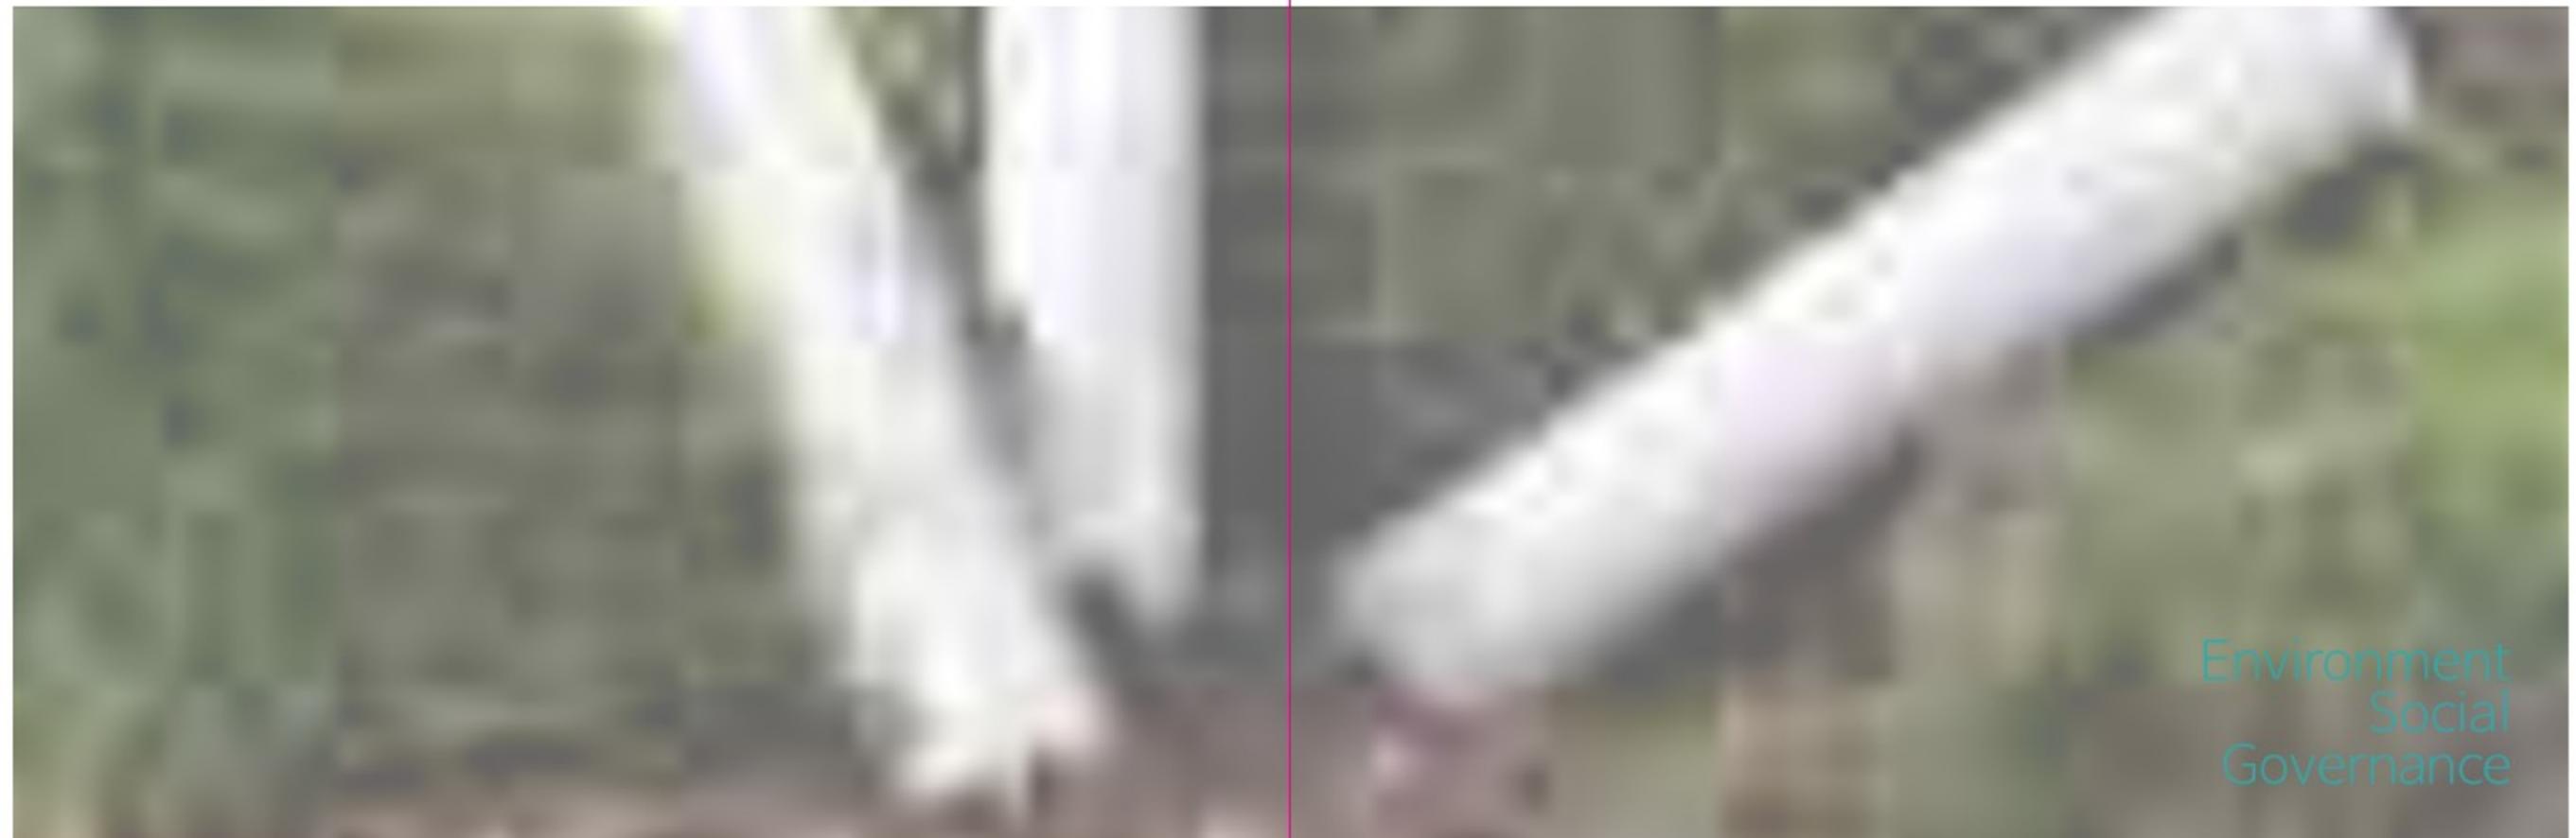

Increase fairness in selecting board members and executives
Reinforcement the prevention of unfair corruption
Improvement of corporate ethics policy

‘Practical management based on trust’

Based on the accumulated technology and know-how for 18 years, we continue to show off our new products with the best quality and new design. All employees having responsibility of protecting people's health and happiness through the clean water make good products that can trust and use. Also, we are building the best production quality system such as ISO9001/14001 system, KC hygiene and safety certification, and NSF 42 certification for customer satisfaction. Showerplus Corp. will grow into an exemplary company in society with the belief and pride that it leads the market change as the origin of filter showers.

We promise that we will do our best to become a company that is loved by our customers in the future.

I ask for your support and interest. Thank you.

Eco-friendly PLA FILTER(POLY LACTIC ACID)

The earth eco-friendly project with AQUADUO

"Aquaduo PLA biodegradable filter that cares about humans and the environment"

Plant-derived PLA material

Lead and cadmium heavy metals not detected

Microplastics Undetected

carbon dioxide 50% reduction

Unlike synthetic resins made of petrochemicals such as PET, PP, and PE, which are commonly used as plastics, PLA (Poly Lactic Acid) is an eco-friendly filter that is 100% biodegradable with eco-friendly vegetable resin made by extracting starch materials from plants such as corn, sugar cane, potatoes, and sweet potatoes, fermenting with glucose, and condensing them with lactic acid.

- 1 Related to biodegradation environmental Labeling Certification (EL-724) using 100% biodegradable nonwoven material
- 2 NON-GMO (non-genetically engineered food) certified material used
- 3 Heavy metals such as lead, cadmium, mercury are not detected
- 4 Microplastics and hazardous environmental hormones are not detected
- 5 Over 90% biodegradable within 180 days under composting conditions (60 degrees Celsius and less than 80% humidity) after use
- 6 50% reduction in greenhouse gas (CO2) and non-provoking harmful environmental hormones during production
- 7 US NSF42 Certification (PLA Filter)

SHOWERHEAD PLA FILTER

SINKHEAD PLA FILTER

BASINHEAD PLA FILTER

Water purification filter shower

CNC precision-processed plates provide a powerful massage effect and save water, and various water purifying filters filter only pure water through eco-friendly PLA filters, and the main body is also a cleaner and more environmental shower using eco-friendly materials.

Eco Filter Premium Shower head

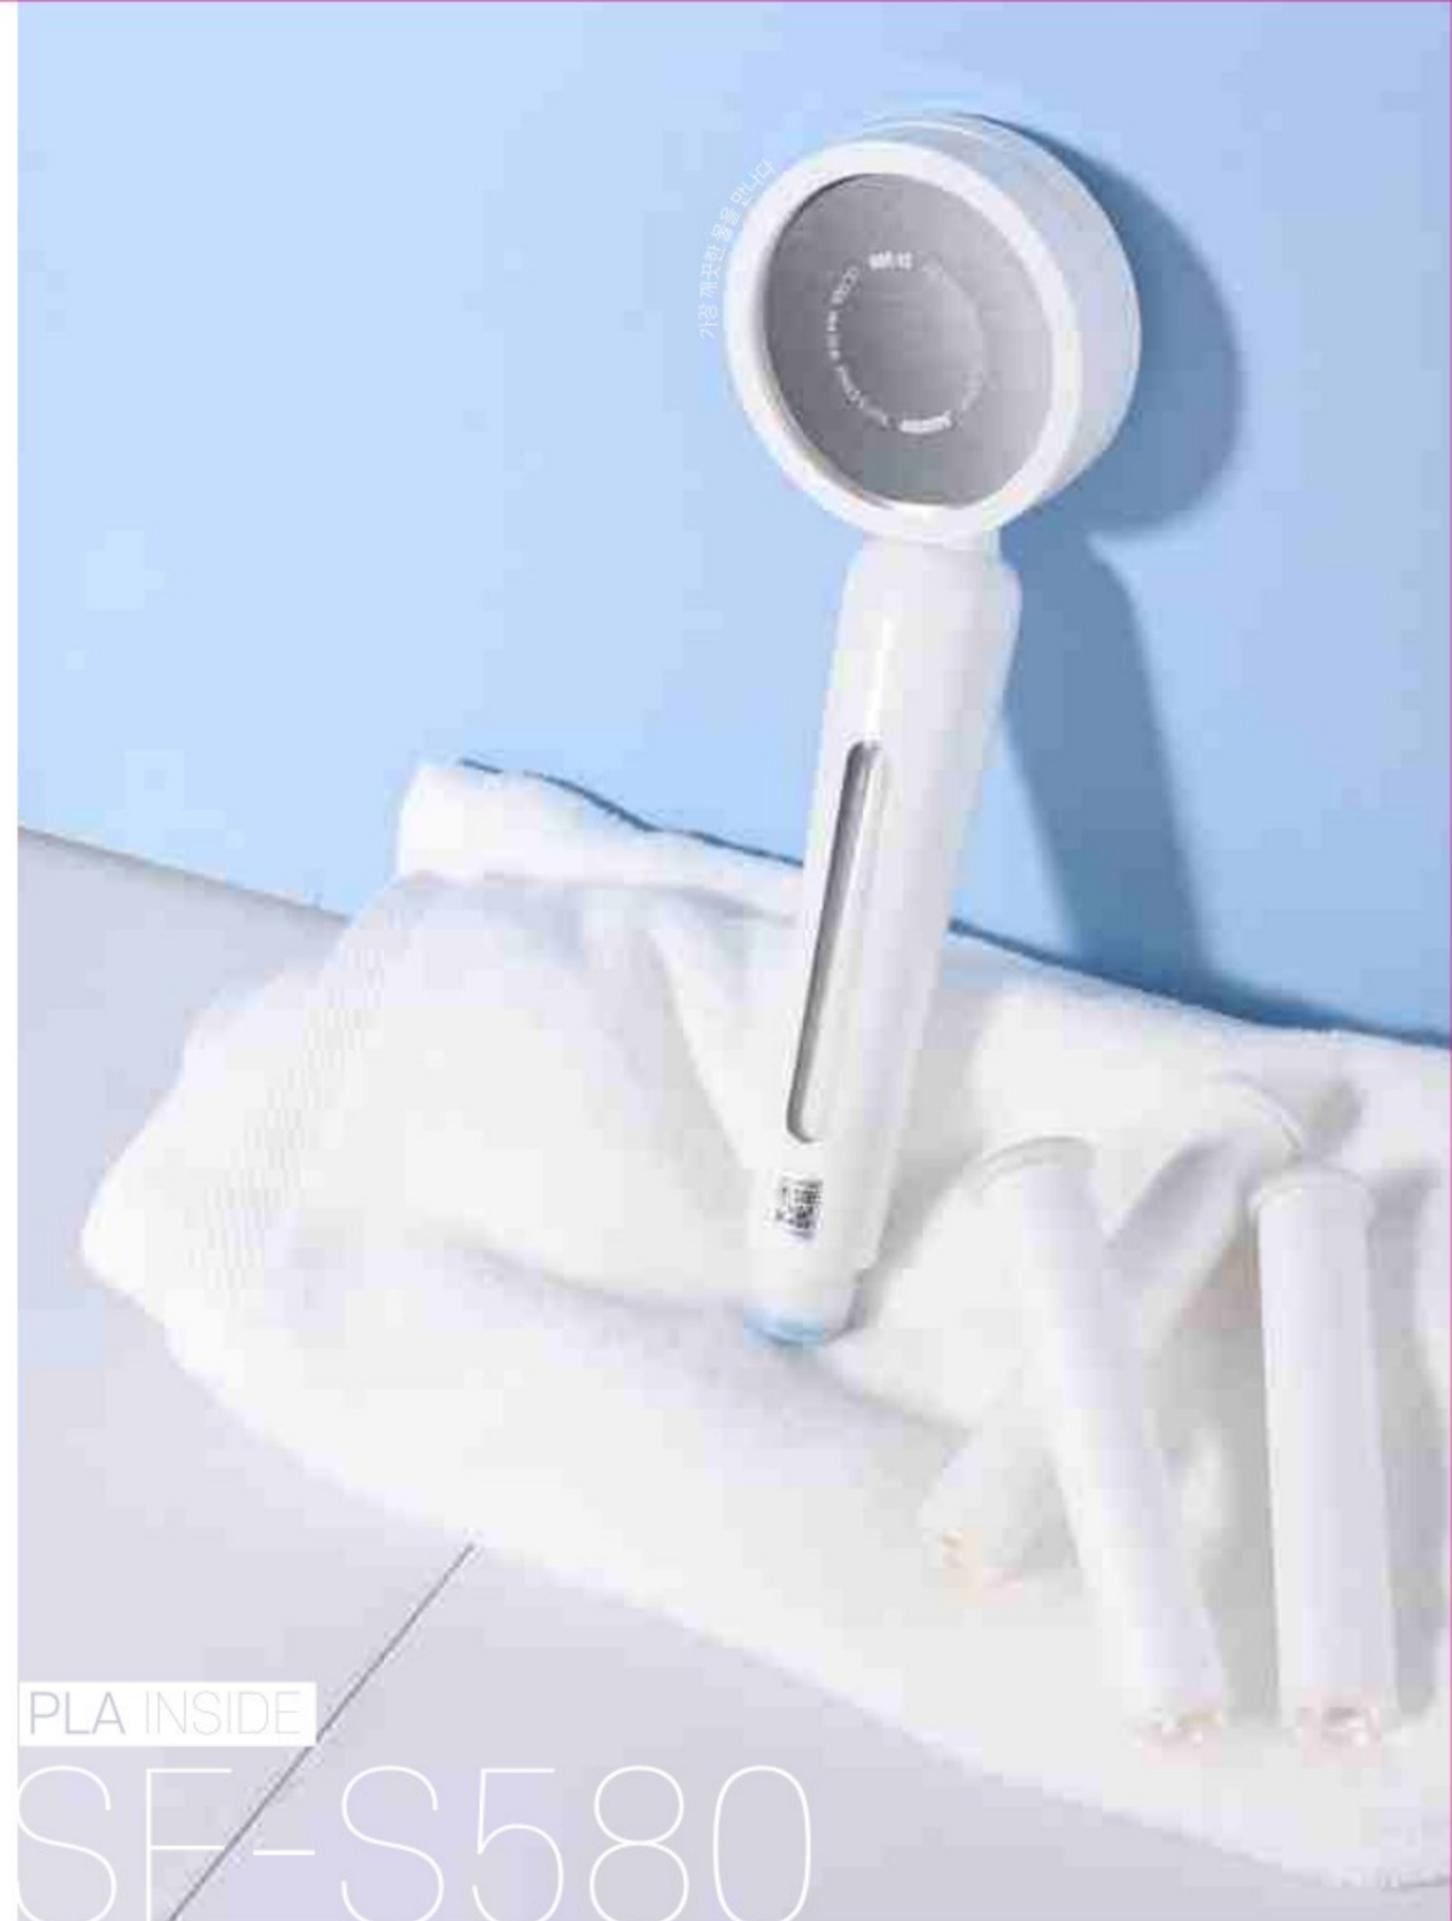

Model Name SF-S580

Configuration body 1ea, PLA(Poly Lactic Acid)filter 1ea,
head ACF filter 1ea

Size 83mm(Diameter) x 245mm(length)

Material body:PC, ABS, Stainless steel / filter: PLA

- Filtering capabilities to filter impurities and fine particles with PLA filter which is certified by NSF material and to mitigate residual chlorine with secondary head ACF filters
- water pressure increase and water saving effects through microholes
- Microplastic Not Detected
- Certification by domestic and international verification agencies
 - World's First PLA Material to Get NSF42 Certification
 - ISO9001 / 14001 Certification
- The application of naturally decomposable filters reduces plastic waste and reduces carbon emissions by more than 50%.

Blossom

DECORATE YOUR BATHROOM WITH A PRETTY SHOWER WITH BLOSSOM COLORS.

ECO-FRIENDLY

Blossom wide shower head SF-S580W

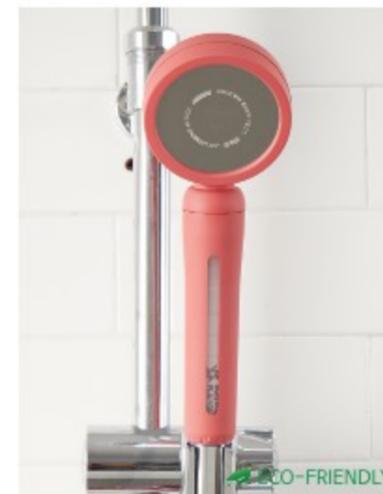

Model Name SF-S580W blossom

Configuration body 1ea, PLA(Poly Lactic Acid)filter 1ea, head ACF filter 1ea

Size 83mm(Diameter) x 245mm(length)

Material body:PC, ABS, Stainless steel / filter: PLA

- Filtering capabilities to filter impurities and fine particles with PLA filter which is certified by NSF material and to mitigate residual chlorine with secondary head ACF filters
- water pressure increase and water saving effects through microholes
- Microplastic Not Detected
- Certification by domestic and international verification agencies
 - World's First PLA Material to Get NSF42 Certification
 - ISO9001 / 14001 Certification
- The application of naturally decomposable filters reduces plastic waste and reduces carbon emissions by more than 50%

ECO-FRIENDLY

Blossom shower head SF-580

Model Name SF-580 blossom

Configuration body 1ea, PLA(Poly Lactic Acid)filter 1ea, head ACF filter 1ea

Size 83mm(Diameter) x 245mm(length)

Material body:PC, ABS, Stainless steel / filter: PLA

- Filtering capabilities to filter impurities and fine particle with PLA filter which is certified by NSF material and to mitigate residual chlorine with secondary head ACF filters
- water pressure increase and water saving effects through microholes
- Microplastic Not Detected
- Certification by domestic and international verification agencies
 - World's First PLA Material to Get NSF42 Certification
 - ISO9001 / 14001 Certification
- The application of naturally decomposable filters reduces plastic waste and reduces carbon emissions by more than 50%

AQUADUO BLOSSOM SHOWER IN 10 COLORS

Kitchen sink shower head

Powerful water pressure rise and water purifying function give you and your family a hygienic kitchen. The eco-friendly PLA filter naturally decomposes to reduce carbon emissions by more than 50%, and the water is dense and uniform, making the skin soft and comfortable. Innovative micro-nozzle technology increases water pressure by increasing water flow and saving up to 30% at the same time.

Sink Handy Shower Head SF-7000

Model Name SF-7000 handy type
 Configuration body 1ea, 1st PLA(Poly Lactic Acid) filter 1ea
 2nd PLA(Poly Lactic Acid) filter 1ea
 Size 62mm(Diameter) X 177mm(length)
 Material PC(Polycarbonate) , ABS, PLA, Stainless steel

- NSF material certified PLA filter that filters out impurities and fine particles
- Water Pressure Increase and Water Saving Effect
- Three-type dispensing buttons allow for use
- Filter can be checked in real time with transparent window structure
- Certification by domestic and international verification agencies
 - Korea Atopy Association / World Atopy Association Recommended Products / Excellent Products
 - ISO9001 / 14001 Certification
- Microplastic Not Detected
- The application of biodegradable filters reduces plastic waste and reduces carbon emissions by 50% or more

AQUADUO CLEAN KITCHEN WITH ECO MATERIALS

Sink Flexible Shower Head SF-7000

Model Name SF-7000 Flexible type / Goose neck type
 Configuration body 1ea, 1st PLA(Poly Lactic Acid) filter 1ea, 2nd PLA(Poly Lactic Acid) filter 1ea
 Size 62mm(Diameter) X 100mm(length)
 Material PC(Polycarbonate) , ABS, PLA, Stainless steel

- NSF material certified PLA filter that filters out impurities and fine particles
- Water Pressure Increase and Water Saving Effect
- Three-type dispensing buttons allow for use
- Filter can be checked in real time with transparent window structure
- Certification by domestic and international verification agencies
 - Korea Atopy Association / World Atopy Association Recommended Products / Excellent Products
 - ISO9001 / 14001 Certification
- Microplastic Not Detected
- The application of biodegradable filters reduces plastic waste and reduces carbon emissions by 50% or more

Sink Handy Shower Head SF-3000

Model Name SF-3000 handy type

Configuration body 1 ea, 1st PLA(Poly Lactic Acid) filter 1 ea, 2nd PLA(Poly Lactic Acid) filter 1 ea

Size 65mm(Diameter) X 177mm(length)

Material PC(Polycarbonate), ABS, PLA, Stainless steel

- NSF material certified PLA filter that filters out impurities and fine particles
- Three-type dispensing buttons allow for use
- Made of transparent material, filter contamination and replacement timing can be checked
- Certification by domestic and international verification agencies
 - Korea Atopy Association / World Atopy Association Recommended Products / Excellent Products
 - ISO9001 / 14001 Certification
- Microplastic Not Detected
- The application of biodegradable filters reduces plastic waste and reduces carbon emissions by 50% or more

Sink LED Handy Shower Head SF-3000LED

Model Name SF-3000LED handy type

Configuration body 1 ea, 1st PLA(Poly Lactic Acid) filter 1 ea, 2nd PLA(Poly Lactic Acid) filter 1 ea

Size 62mm(Diameter) X 177mm(length)

Material PC(Polycarbonate), ABS, PLA, Stainless steel

- NSF material certified PLA filter that filters out impurities and fine particles
- The strong water pressure increase and water purification filter function is also the LED module expresses the temperature of the water with LED to give a more beautiful bathroom atmosphere.
- Three-type dispensing buttons allow for use
- Made of transparent material, filter contamination and replacement timing can be checked
- Certification by domestic and international verification agencies
 - Korea Atopy Association / World Atopy Association Recommended Products / Excellent Products
 - ISO9001 / 14001 Certification
- Microplastic Not Detected

Sink Handy Shower Head SF-3000

Model Name SF-3000 handy type

Configuration body 1 ea, 1st PLA(Poly Lactic Acid) filter 1 ea, 2nd PLA(Poly Lactic Acid) filter 1 ea

Size 65mm(Diameter) X 177mm(length)

Material PC(Polycarbonate), ABS, PLA, Stainless steel

- NSF material certified PLA filter that filters out impurities and fine particles
- Three-type dispensing buttons allow for use
- Made of transparent material, filter contamination and replacement timing can be checked
- Certification by domestic and international verification agencies
 - Korea Atopy Association / World Atopy Association Recommended Products / Excellent Products
 - ISO9001 / 14001 Certification
- Microplastic Not Detected
- The application of biodegradable filters reduces plastic waste and reduces carbon emissions by 50% or more

Sink Flexible Shower Head SF-1000

Model Name SF-1000 flexible type

Configuration body 1 ea, PLA(Poly Lactic Acid) head filter 1 ea

Size 62mm(Diameter) X 67mm(length)

Material PC(Polycarbonate), ABS, PLA, Stainless steel

- NSF material certified PLA filter that filters out impurities and fine particles
- Three-type dispensing buttons allow for use
- Made of transparent material, filter contamination and replacement timing can be checked
- Certification by domestic and international verification agencies
 - Korea Atopy Association / World Atopy Association Recommended Products / Excellent Products
 - ISO9001 / 14001 Certification
- Microplastic Not Detected

Washbasin water filter head

The strong water pressure increase and water purification filter function is also the LED module model expresses the temperature of the water with LED to give a more beautiful bathroom atmosphere. Filtering capabilities to filter impurities and fine particles with PLA filter which is certified by NSF material and to mitigate residual chlorine with secondary head ACF filters.

Washbasin water filter head SF-1000FM

Model Name SF-1000FM
 Configuration body 1ea, PLA(Poly Lactic Acid) filter 1ea, adapters 6pcs, spanner 1ea
 Size body : 36ø X 40mm
 filter : 38mm X 25mm
 Material PC, ABS, PLA, Stainless steel

- NSF material certified PLA filter that filters out impurities and fine particles
- Filter can be checked in real time with transparent window structure
- Water saving aerator that discharges the same amount regardless of water pressure
- Certification by verification agencies
 - KC Certification : KCW-2017-0117
 - Korea Atopy Association / World Atopy Association Recommended Products / Excellent Products
 - ISO9001 / 14001 Certification

Washbasin LED Water Tab SF-1500LED

Model Name SF-1500LED
 Configuration body 1ea, LED self-powered device 1ea, nonwoven filter 1ea, adapters 6pcs, spanner 1ea
 Size body - 45ø X 43mm
 Material PC, ABS, Stainless steel, LED

- inside nonwoven filter that filters out impurities
- the LED module model expresses the temperature of the water with LED to give a more beautiful bathroom atmosphere.
- Certification by verification agencies
 - KC Certification : KCW-2017-0117
 - Korea Atopy Association / World Atopy Association Recommended Products / Excellent Products
 - ISO9001 / 14001 Certification

Washbasin water filter head SF-2000

Model Name SF-2000
 Configuration body 1ea, Sediment Filter 1ea, adapters 6pcs, spanner 1ea
 Size body : 36ø X 40mm
 filter : 38mm X 25mm
 Material PC, ABS, Sediment, Stainless steel

- NSF material certified PLA filter that filters out impurities and fine particles
- Filter can be checked in real time with transparent window structure
- Water pressure increase and water saving effects through microholes
- Certification by verification agencies
 - KC Certification : KCW-2017-0117
 - Korea Atopy Association / World Atopy Association Recommended Products / Excellent Products
 - ISO9001 / 14001 Certification

Washbasin LED water filter head SF-2000LED

Model Name SF-2000LED
 Configuration body 1ea, LED self-powered device 1ea, sediment filter 1ea, adapters 6pcs, spanner 1ea
 Size 45ø X 43mm
 Material PC, ABS, Stainless steel, LED

- NSF certified sediment filters by Purify impurities and fine particles in the water.
- Made of transparent material, filter contamination and replacement timing can be checked.
- The strong water pressure increase and is also the LED module model expresses the temperature of the water with LED to give a more beautiful bathroom atmosphere.
- Certification by verification agencies
 - KC Certification : KCW-2017-0117
 - Korea Atopy & World Atopy Association Recommended Products / Excellent Products
 - ISO9001 / 14001 Certification

Shower hose

It adds cleanliness by using eco-friendly materials in shower hoses that are highly contaminated by water, and provides a bright bathroom in various colors.

METAL SHOWER HOSE
AQUADUO SOFT METAL LINE

Metal shower hose

Model Name Metal shower hose
Size 1.5m, 2m, 3m
Material Stainless steel, PVC, NBR

- Designed to rotate the hose 360° inside, metal shower hose with twist prevention capability

ECO-FRIENDLY

Anti-twist PVC shower hose

Model Name PVC shower hose 2.0m
Size 2m
Material polyketone, silicon, PVC

- Rotational design of 360° rotation of shower hose with twist prevention function
- Easy to clean hoses without water stain
- Comfortable feeling with soft, flexible material
- Certification by domestic and international verification agencies
 - Korea Atopy Association Recommended Products
 - World Atopy Association Excellent Products
 - ISO 9001/14001 Certification
- Use of eco-friendly polyketone core

PVC SHOWER HOSE
WATER INNOVATION,
AQUADUO TWIST PREVENTION LINE

SPRING SHOWER HOSE
WATER INNOVATION, AQUADUO SIGNATURE LINE

ECO-FRIENDLY

Anti-twist spring shower hose

Model Name spring shower hose 3.0m
Configuration hose 1ea, spanner 1ea
Size 2.5m
Material PU(polyurethan), silicon, polyketone

- Rotational design of 360° rotation of shower hose with twist prevention function
- Easy to clean hoses without water stain
- Comfortable feeling with soft, flexible material
- Certification by domestic and international verification agencies
 - Korea Atopy Association Recommended Products
 - World Atopy Association Excellent Products
 - ISO 9001/14001 Certification
- Use of eco-friendly polyketone core

Products for pets

Functional product exclusively for pets that allows them to take a healthy and comfortable bath

PET SHOWER SF-5000 PET

Model Name SF-5000

Size 82ø x 91mm

Body material PC, ABS, Stainless steel, silicon

filter material PP, Vitamin C gel, coconut oil

- Filter up to 5um fine particles with NSF-certified filter
- Water Pressure Increase and Water Saving Effect through Microholes
- Relieve stress on pets by minimizing noise
- Coconut-flavored vitamin C filter helps pets take a comfortable bath
- Silicone caps prevent splashing water and remove dead fur
- KKC designated company by the president of the Korea Dog Association
- Water saving control with ON/OFF function
- Patent of Invention No. 0788052 'Shower Filter Device' Product

Pe+Plus

PET SHOWER

펫플러스 펫샤워기

Pe+Plus

PET BRUSH

PET BRUSH SF-8000 BRUSH

Model Name SF-8000

Size 95ø x 77mm

Material PC, ABS, silicon

- A total of 150 functional 3-tier bumps allow for meticulous combing
- Three types of silicone bumps remove deep tangled dead hair and prevent static electricity
- A hypoallergenic brush made of silicone
- Massage function
- Long-haired pets can use by reverse the cap
- KKC designated company by the president of the Korea Dog Association
