

Magic Bubble Conc 200g

Magic Bubble Conc is a bubble solution concentrate. In 200 grams of concentrate, the user (consumer) adds water 800ml and mixes it to make a bubble solution. Use the solution to play with giant bubbles. The bubble solution does not burst easily and has good elasticity, so it is possible to play various types of bubble plays that are curious and interesting. This product is a giant bubble solution in the form of DIY, and you must obtain a bubble device separately.

How to turn concentrate into a bubble solution

1. Open the lid
2. Carefully add water to the 1,000ml scale
3. Close the lid tightly
4. Mix down and up more than 10 times.
5. Use it for bubble play.

Warning

- You can't eat or drink.
- If it gets on your skin or eyes, wipe it with water
- Do not use it for anything other than its intended use

(Various forms of soap bubbles can be played using bubble device)
