The reason why we recommend a Cover Essence is that a small amount of plastic is included in the mask sheet to be pasted. No matter how gentle a mask sheet is made, the skin is invisibly stimulated while applying the mask sheet. Also the skin cannot properly receive the nutrients in the mask sheet, so it is impossible to maximize the nutrition supply. Excellent replacement of existing Mask Sheets!

Therefore, with applying AVEA Eco Luxury Vitamin Cover Essence minimize skin irritation and while receive the maximum effects by supplying in rich nutrition! It is simply Sheet-Free Mask! Very Convenient and Very effective! No need to wash off after applying this Vitamin Cover Essence.

This Essence is also formulated with Adenosine and Niacinamide for double functions and it is mildly acidic.

This Cover Essence can be used on top of the make-up to prevent makeup from lifting-up and sebum rising so that you could continue to create a bright and beautiful look.
