community.

## CERTIFICATION

- CALIFORNIA PROPOSITION 65
- REACH
- East Asia LOHAS Association (EAST ASIA LOHAS PRODUCTS)
- Certification of SCI excellent technology company (personalized insole manufacturing technology using AI machine learning)

## PRODUCT SAFETY HAZARD TEST PASS

- Pedolign Foot Pressure Test Kit / PEDOLIGN FUNCTIONAL DIY CUSTOM INSOLE B : EPA standard (EPA 3580A/8270C/3051) / Directive EC (EC 1907/2006)
- Pedolign Functional Insole : Korea Institute of Footwear & Leather Technology

## PATENT

The best walking solution. PEDOLIGN

- Korean No. 10-2015372 Foot pressure pattern measuring device and method of guiding the combination of foot pressure using it
- Korean No. 10-2466971 Foot Pressure Pattern Measurement Pad
- Korean No. 10-2553715 Personalized Insole Production Device
- Korean No. 10-2578079 Online Personalized Insole Production System

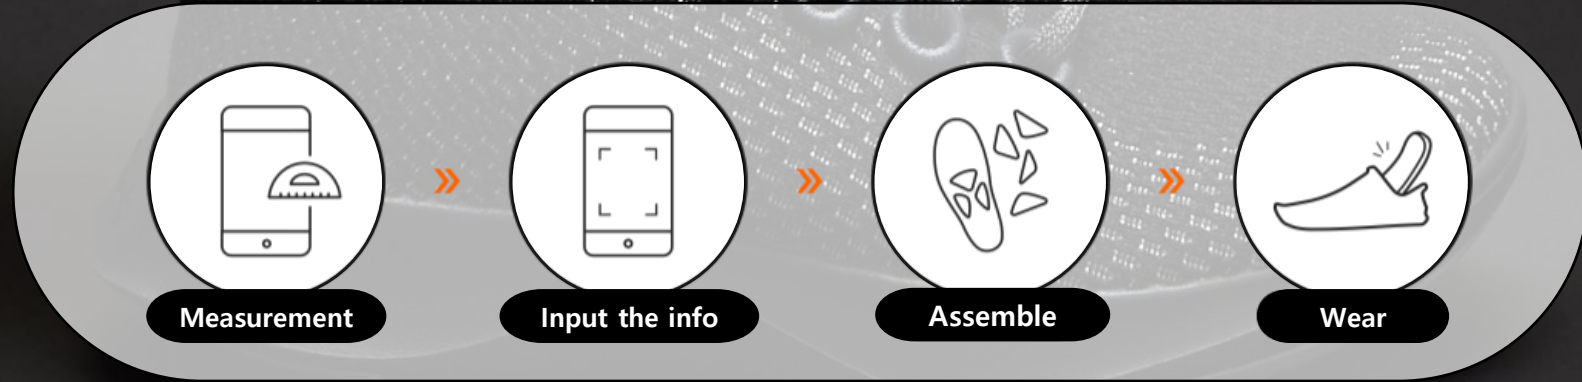

DIY Package\_Daily Balance

## ONE-STEP SYSTEM

Pedolign provides an integrated ONE-STEP production service that makes it easy and convenient to use every step from measurement to insole production at once.

## AI Personalized system

Pedolign provides the most optimized solution  
For individual feet and walking patterns  
Through AI machine learning,  
Based on big data on feet and posture accumulated  
From more than 20 years of clinical research.

## AI PERSONALIZED SYSTEM

The best walking solution. PEDOLIGN

### Fast and easy measurement

With webservice support,  
Anyone can easily use the service  
Without downloading an app  
And the test report can be checked immediately.

### Automatic patterns analysis

The AI modeling program accurately analyzes  
information, Such as pressure, gait balance  
and center of pressure movement.

### Providing a personalized solution

We offer a personalized solution for  
the most natural and balanced walking, With a  
combination of accessories that assist with the foot  
and gait function to suit the movement characteristics.

### Compatible with other company's foot pressure scanner gait data

Dynamic walking foot pressure data measured  
by other company's foot pressure scanners are  
compatible with the PEDOLIGN system to derive  
solutions.

## FOOT PRESSURE PAD(FP-626)

FOOT PRESSURE PAD,  
made with Pedolign's patented technology,  
is a portable foot pressure measuring device  
that analyzes walking patterns  
by measuring dynamic weight load and pressure distribution.

### Pedolign observes moving feet.

Pedolign's foot pressure pad shows a variety of characteristics in moving foot regardless of the shape of the foot. So, you can see the condition of your foot more accurately and conveniently.

(Direction of movement, balance, pressure information)

- ✂ It's easy to carry and can be used anywhere
- ✂ It is easy and convenient for anyone who is not an expert or skilled person.
- ✂ You can immediately check the distribution of foot pressure and walking balance in each part of the foot, So you can see the cause of imbalance and pain.

## Pedolign's customized insole for my feet different in both feet

Pedolign insole is a functional customized insole with a new concept that assembles and wears different shapes on both sides to suit the shape and movement of your feet

## FUNCTIONAL INSOLE

The best walking solution, PEDOLIGN

Pedolign customized insole is total support insole to help original function of foot recover and maintain.

### LIFE

Keeping the correct body alignment, Pedolign Footgear helps the children facilitating the growth and the adults maintaining the right posture and the balance of the of the body.

### HEALTH

Pedolign footgear relieves chronic pain and musculoskeletal pain and helps preventing edema & fatigue of legs and having a high metabolism.

### SPORTS
