Healing Breath from the Forest
: Red Pine Phytoncide

적송

Red Pine

(주)베델코리아는 한국 토종 소나무인 적송 Red Pine에서 추출한 Oil (피톤치드) 성분을 핵심원료로하여 건강식품과 Personal Care를 연구, 개발하는 기업입니다.

BEDELKOREA is a company engaged in research and development of a functional food whose principal ingredient is oil (phytoncide), extracted from the native Red pine tree of Korea.

적송피톤치드 RED PINE PHYTONCIDE

식물 PHYTON + 살균력 CIDE

사람들이 삼림욕을 즐기는 것은 피톤치드(Phytoncide) 때문인데 숲 속의 향긋한 냄새를 만들어 내는 것이 바로 피톤치드의 주성분인 테르펜 이라는 물질입니다.

붉은소나무의 솔잎에는 테르펜, 비타민, 필수/비필수아미노산, 플라보노이드, 폴리페놀과 같은 강한 약리작용을 가진 다양한 유효성분을 함유하고 있으며 심리적인 안정감 이외에도 말초 혈관을 단련시키고 심폐 기능을 강화 시킵니다. 기관지 천식과 폐결핵 치료, 심장 강화에도 도움이 된다고 알려져 있습니다.

Red Pine Oil (레드파인추출 피톤치드)는 건강식품의 원료로 사용되는 식품원료입니다. (KFDA 식품공전 등록)

Red Pine Oil (레드파인추출 피톤치드)는 FDA 식품 안전성이 인증된 원료입니다.

RED PINE PHYTONCIDE What is Red Pine Oil (Red Pine Phytoncide)?

Plant (PHYTON) + Bactericidal (CIDE)

More than 5000 kinds of natural volatile organic compounds are contained in the Red Pine Oil (Red Pine Phytoncide).

The pine needle oil contains diverse active ingredients which have strong pharmacological actions, such as terpenes, vitamins, essential amino acids, non-essential amino acids, flavonoids, and polyphenols. When pine ingredients were extracted in Korea, China, Japan, and other Southeast Asian countries, it was determined that the Red Pine has the best pharmacological action of polyphenol and terpene oils, which are the main indices. Red Pine Oil passed the FDA foods safety test, proving its safety, and is used as an ingredient of health functional foods.

(KFDA Korea Food Standards Codex registered)
(Certified of ingredient safety by U.S FDA)

인증 현황

ISO22000 | Manufacture of pine needle distillation concentrated oil and powder

ISO22000 | 松葉蒸餾濃縮精油及粉末의 제조

ISO22000 | 솔잎증류농축오일 및 분말의 제조

Pine Needle Oil Powder manufacturing and salts

专利注册 松针粉制造及销金
