GreenBworld has been in business for more than 20 years starting with manufacturing mobile parts.

Our company has been recognized for the technology applying various types of mobile phone-related decorative films to several mobile phones including Samsung.

We have various technologies such as micro mold manufacturing, which is the core of nano imprinting technology, 3D pattern technology and anti-counterfeiting film production technology. Our own unique skills are applied to mobile phones, home appliances and automobiles.

BRAND ABOUT

GreenBworld manufactures products using specialized technologies such as product design, and optical pattern production.

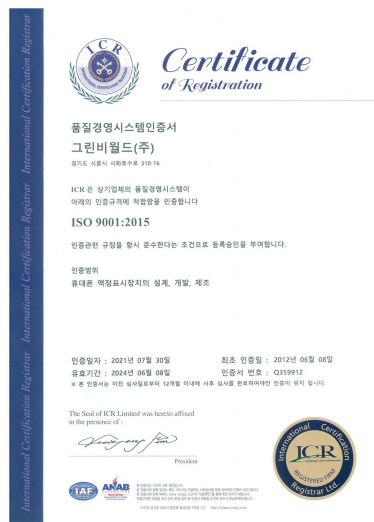

Beyond the function that simply protects the mobile phone, it enhances the dignity of the user by the differentiated, sophisticated and luxurious design.

GREEMO, we want to be the brand you wish to know earlier
