Contents

Type. Chewable

Feature

**Contained UK-sourced
Vitamin C^{47p}**

High-Quality Premium Vitamin C

Contained Zinc

Carefully selected 6 Balanced Vitamin^{48p}

Vitamin A, Vitamin B₂, Vitamin B₅, Vitamin C, Vitamin D, Vitamin E

2 Flavors *Choose from orange to strawberry flavor as you like!

Feature | Contained UK-sourced Vitamin C

**Contained High-Quality
Premium British
Vitamin C**

Feature | Carefully selected 6 Balanced Vitamin

Vitamin A

- Necessary for visual adaptation in the dark
- Necessary for forming and maintaining the function of skin and mucous membranes
- Necessary for the growth and development of epithelial cells.

Vitamin C

- Necessary for connective tissue formation and function maintenance
- Necessary for iron absorption
- Necessary for protection cells from harmful oxygen by antioxidant action.

Vitamin D

- Necessary for calcium and phosphorus to be absorbed and utilized.
- Necessary for bone formation and maintenance.
- Helps reduce the risk of developing osteoporosis.

Vitamin B₂

- Necessary for energy production in the body

Vitamin B₅

- Necessary for fat, carbohydrate and protein metabolism and energy production.

Vitamin E

- Necessary for protecting cells from active oxygen by acting as an antioxidant

Babyrak Red Ginseng Jelly

베이비락 짜먹는 튼튼 홍삼짱젤리

1.5g x 30 Packets (45g)

Design

Contents

Type. Jelly

Feature

Korean 6-year-old Red Ginseng (Main ingredient) used ^{74p}

Concentrated Korean 6-year-old Red Ginseng extract

Contained Ginsenosides ^{75p}

3.3mg per daily serving (of Rg1, Rb1 and Rg3)

Contained Zinc

Platelet Aggregation inhibition ^{76p}

Delicious Blueberry Flavor

Use carefully selected Korean 6-year-old Red Ginseng (Main ingredient)

Babyrak Red ginseng Jelly uses
6-year-old red ginseng extract
from Korea for children.

**What is
Red Ginseng?***

As one of the most used health functional raw materials, beneficial and new physiologically active ingredients are created in the process of steaming raw ginseng, which results in many types of saponins being contained.

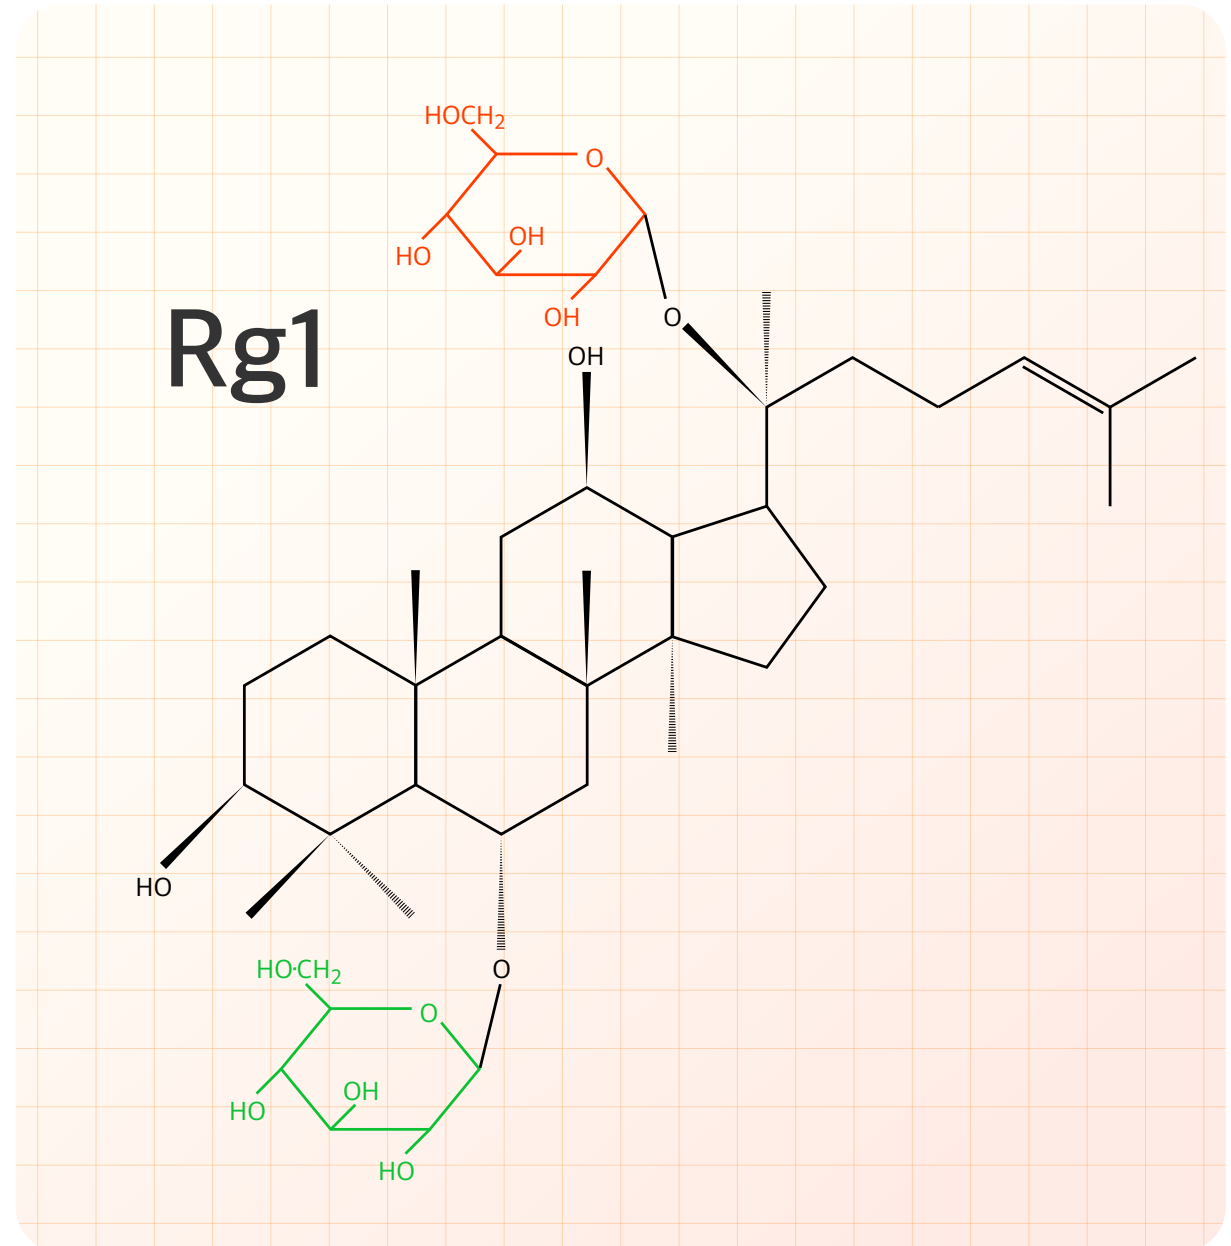

Feature | Contained Ginsenosides

Contained 3.3mg of Ginsenoside (Based on 1 packet per day)

Contains 3.3mg of ginsenoside
(the sum of Rg1, Rb1 and Rg3)
per pack per day.

What is Ginsenoside? *

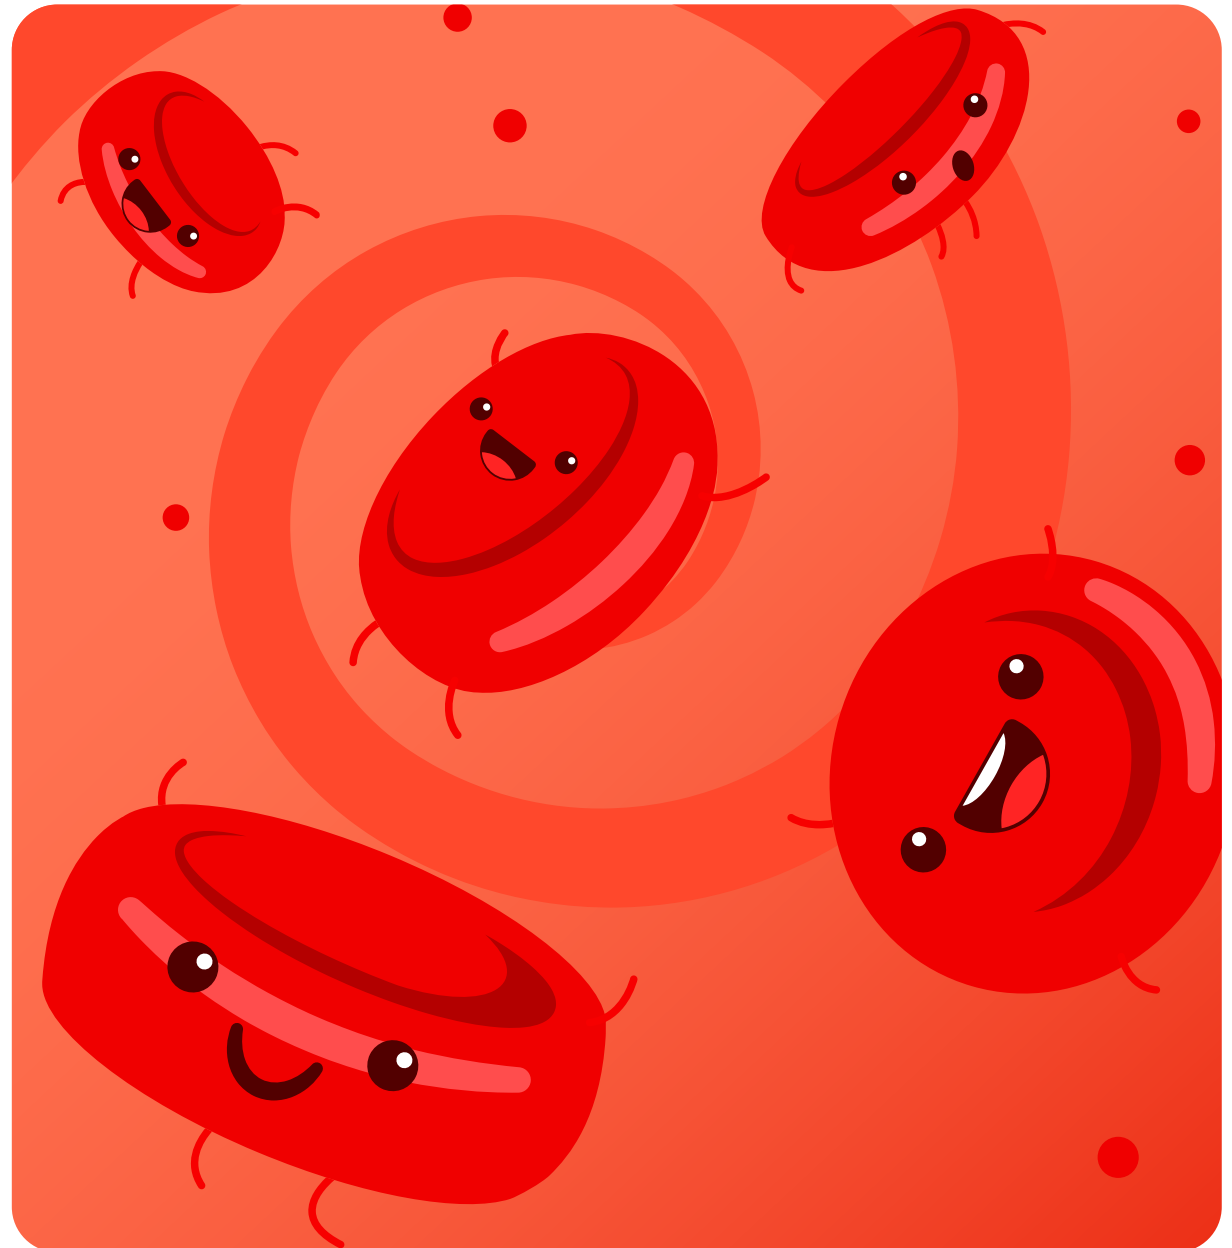

It is a saponin found in red ginseng,
and is called 'ginsenoside' to differentiate
it from other saponins.

Feature | Platelet Aggregation inhibition

Help blood flow through platelet Aggregation inhibition

Red ginseng can help blood flow through inhibition of platelet aggregation in children.

PRODUCT INFORMATION

[Product name]	Babyrak Red Ginseng Jelly
[Content]	20 g x 10 Packets (200 g)
[Ingredients]	Red ginseng concentrate [domestic, 6-year-old roots, {total sum of Rg1, Rb1, and Rg3 ginsenosides 23mg/g or more, solid content 60% or more (raw material ratio: 70% red ginseng roots, 30% red ginseng hairs)}] 1.794%, zinc gluconate, purified water, fructooligosaccharides, concentrated grape juice (Chilean), agave syrup, cyclodextrin syrup, crystalline glucose, blueberry concentrate (USA), mixed stabilizer [locust bean gum, xanthan gum, functionally modified starch, Handchen, tamarind gum], mixed flavoring [propylene glycol, triacetin, synthetic flavor, vinegar, purified water], calcium lactate, Handchen, mixed plant extract (compound turmeric extract), enzyme-treated stevia, anhydrous citric acid, grapefruit seed extract.
[Directions]	Take one chewable tablet per day.

Design

Contents

Type. Spray

Feature

Contained Brazilian Green Propolis ^{81-82p}

Water-soluble Propolis

Contained Flavonoids

1mg per daily serving

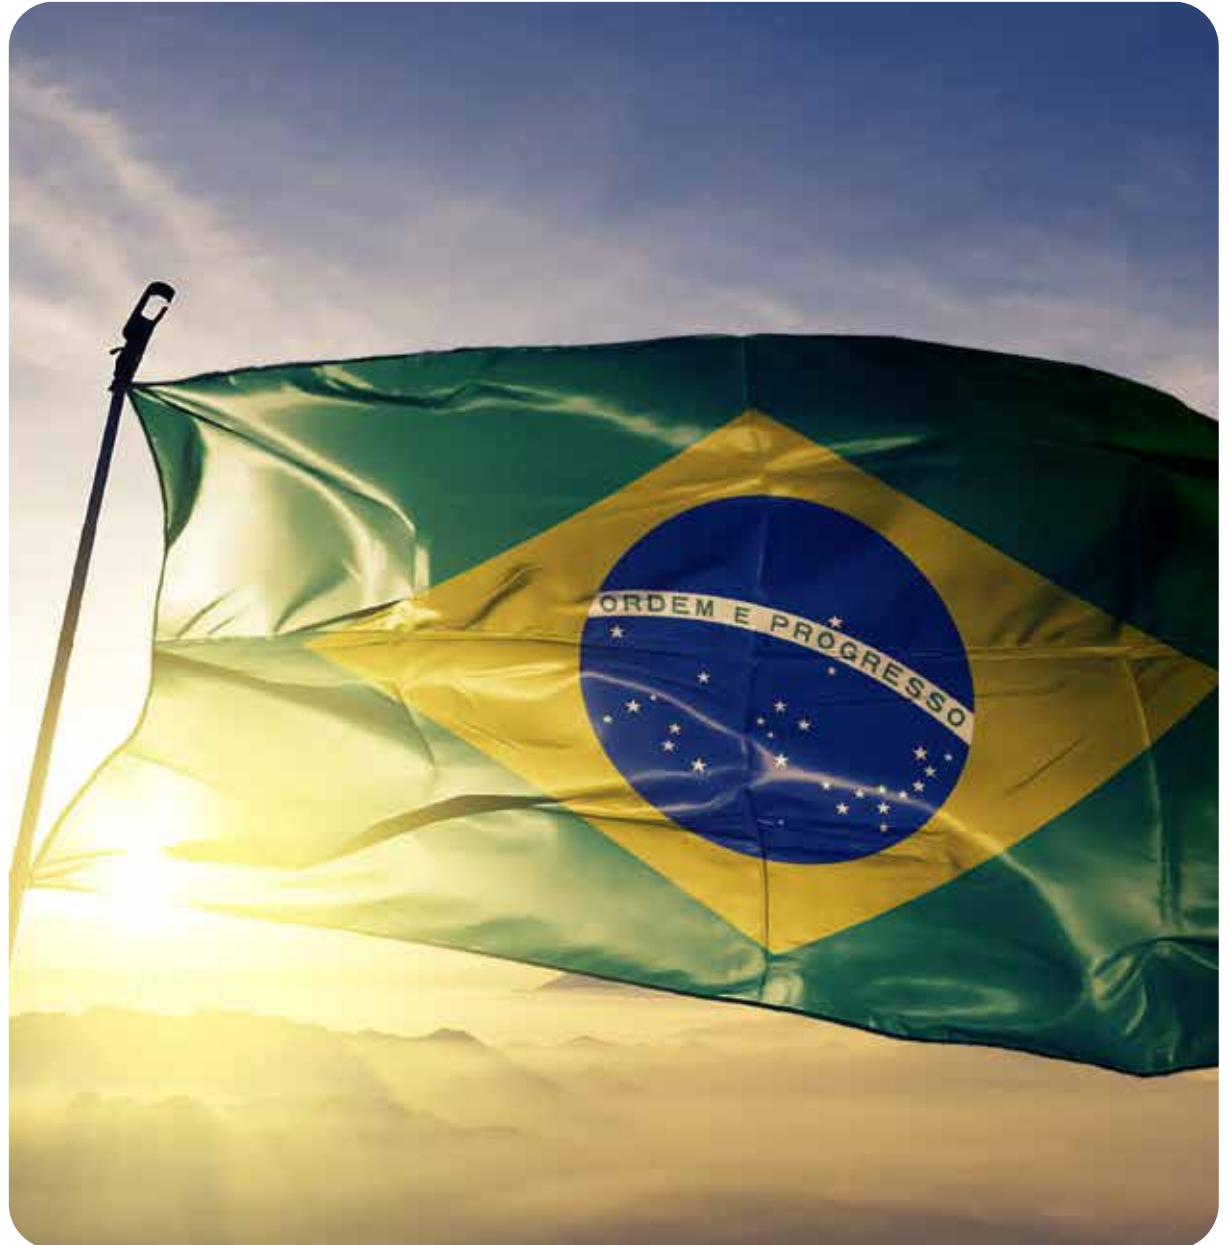

Oral Antibacterial Action

Strawberry Yuja Flavor

Feature | Contained Brazilian Green Propolis

Contained Brazilian Green propolis

It is a premium health functional food containing Brazilian green propolis extract, which can help antibacterial action in the oral cavity.

What is Propolis?*

A substance made by mixing pollen and plant secretions (sap, etc.) by honeybee.

Bees are known to apply propolis to cracks in the hive to protect themselves from germs and viruses and to prevent invasion by enemies such as wasps and mice. In 1955, Remy Chauvin of France was researching the absence of bacteria in bees' bodies, and it was discovered that propolis played a role.

Propolis contains more than 20 different **flavonoids**¹, and these flavonoids represent the functionality of propolis.

What is Propolis?*

What is Flavonoid?*

A type of pigment contained in plants and other organisms. Propolis contains several types of **flavonoids** that are very resistant to bacteria not found in other plants.

Information | Product Information

PRODUCT INFORMATION	
[Product name]	Babyrak Propolis Cheek-Cheek Spray
[Content]	30 ml
[Ingredients]	Propolis extract (from Brazil), purified water, xylitol, natural strawberry flavor (natural flavoring), natural yuzu flavor (natural flavoring), manuka honey (from New Zealand), citric acid, enzyme-treated stevia, strawberry concentrate (from domestic strawberries), concentrated pear juice (from domestic pears), yuzu concentrate (from domestic yuzu), mixed vegetable concentrate powder.
[Directions]	Take 2 sprays into your mouth per serving, twice a day. (0.421ml per 1 spray)
[Precautions for ingestion]	If you have allergies to propolis, please be careful when taking this product. If you have a unique or allergic constitution, please consult with a doctor before taking this product. Check the recommended intake and method of administration before taking. Also, check the expiration date before taking. Do not consume the product if the expiration date has passed. If you experience any abnormal symptoms, stop taking the product and consult with a medical professional or contact the consumer information center. Design

Contents

Type. Chewable

Feature

**Contained
4 Functional ingredients** ^{89p}

Calcium, Magnesium, Zinc, Vitamin D

2:1 Golden Ratio ^{90p}

Calcium : Magnesium ideal absorption rate

UK-sourced Seaweed Calcium ^{91p}

Honeycomb porous structure

Contained Zinc

DSM Switzerland-sourced Vitamin D₃ ^{92-93p}

NON-GMO ^{94p}

Uses Non-genetically modified cornstarch

Delicious Milk Flavor

Feature | Contained 4 Functional ingredients

Calcium

*Amount per daily intake

300mg

- Needed for the formation of bones and teet
- Required for maintainig nerve and muscle functions
- Necessary for normal blood clotting
- Aids in reducing the risk of osteopotosis

Magnesium

*Amount per daily intake

150mg

- Required for energy utilization
- Necessary for maintaining nerve and muscle functions

Zinc

*Amount per daily intake

4.25mg

- Needed for normal immune function
- Required for normal cell division

Vitamin D

*Amount per daily intake

10ug

- Necessary for the absorption and utilization for calcium and phosphorus
- Required for the formation and maintenance of bones
- Helps in reducing the risk of osteopotosis

Feature | 2:1 Golden Ratio

Calcium Magnesium

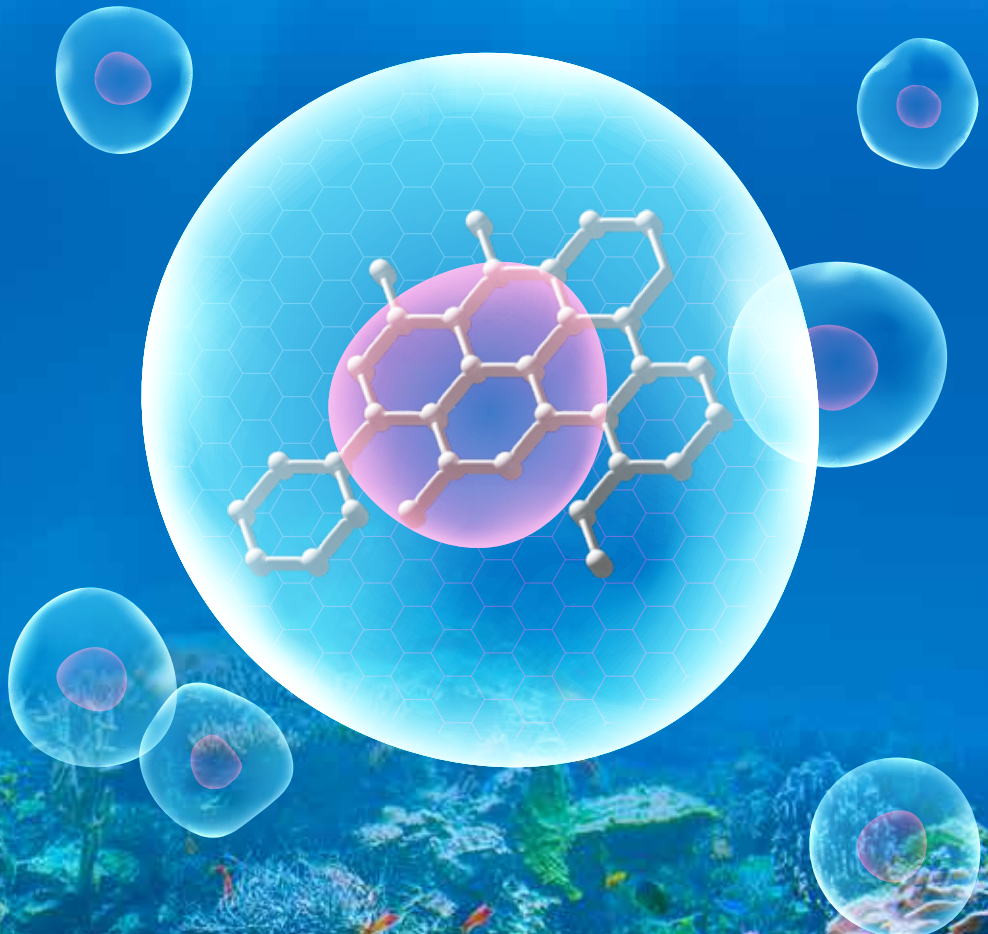

In a 2:1 Golden Ratio ideal absorption rate

Lack of magnesium lowers the concentration of calcium in the body, so it is recommended to eat in a balanced manner in the ratio of calcium and magnesium 2:1

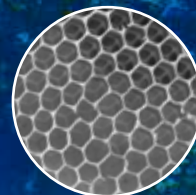

British Seaweed Calcium* for easy digestion and absorption of chenes

Calcium seaweed has a honeycomb porous structure so it dissolves and ionizes smoothly in the stomach.

Calcium seaweed?*

It's red algae calcium, which is extracted from the deep in the ocean

Porous honeycomb structure?*

The porous honeycomb structure is easy to digest and absorb in the body

Feature | DSM Switzerland-sourced Vitamin D₃

Meets 100% of the daily nutritional value

**Easily Absorbed
in the body**

Premium Vitamin D₃

Vitamin D₃ is in an activated state that is easily absorbed in the body compared to Vitamin D₂. Therefore, consuming Vitamin D₃ is the recommended to enhance the absorption rate in the body.

**What is the difference
Vitamin D₂ and D₃?**

Vitamin D₂ can be obtained through plant-based foods, while Vitamin D₃ can be obtained through animal-based foods or synthesized in the skin through exposure to ultraviolet rays

Feature | DSM Switzerland-sourced Vitamin D₃

Swiss DSM Vitamin D

We have used premium Vitamin D₃ raw material from Switzerland, adhering to the quality standards of DSM, a global nutrition and health-specialized

By entering into a domestic usage agreement for the Vitamin D brand Quali-D, we provide a trustworthy product that you can consume with confidence. Please be sure to check for the Quali-D mark.

Feature | NON - GMO

NON - GMO

Calcium-Magnesium-Zinc-Vitamin D

The Vitamin D3 ingredient contained in our product is derived from non-genetically modified cornstarch.

Information | Nutrition Information

NUTRITION INFORMATION

Calcium	Needed for bone and teeth formation, necessary for maintaining nerve and muscle function, necessary for normal blood clotting, and helps reduce the risk of osteoporosis.
Magnesium	Need to use energy, need to maintain nerve and muscle function
Zinc	Essential for normal immune function and necessary for normal cell division.
Vitamin D	Necessary for the absorption and utilization of calcium and phosphorus, needed for bone formation and maintenance, and may help reduce the risk of osteoporosis.
[Amount Per Serving]	Calories 10 kcal, Carbohydrates 2 g(1 %), Protein 0 g(0 %), Fat 0 g(0 %), Sodium 5 mg(0 %), Calcium 300 mg(43 %), Magnesium 150 mg(48%), Zinc 4.25 mg(50 %), Vitamin D 10 µg(100 %) ※The values in parentheses represent the daily nutritional reference values

※This product can be exchanged or compensated according to the Consumer Dispute Resolution Standards notified by the Fair Trade Commission.

※To report any abnormal cases, please call 1577-2488 without an area code.

※This product is not a medicine for the prevention or treatment of diseases.

※This product has been manufactured in the same facility that also processes ingredients such as allergens (chicken, duck, quail eggs, buckwheat, peanuts, wheat, mackerel, crab, shrimp, pork, peaches, tomatoes, walnuts, chicken, beef, squid, shellfish including oysters, abalone, and mussels, pine nuts, etc.)."

Babyrak Tok-Tok Hany DHA (Omega 3)

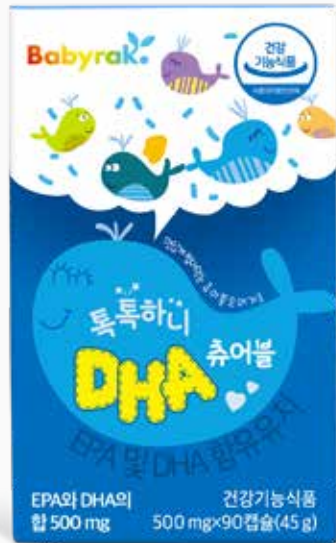

베이비락 톡톡하니 DHA 츠어블

500mg x 90 Capsules (45g)

Detail

Design

Contents

Type. Chewable

Feature

High-purity Omega-3 EPA and DHA content^{100-102p}

Based on a daily intake standard (combined EPA and DHA 500mg)

Norwegian Deep-sea Fish^{103p}

**No concerns about Heavy
Metal Contamination**^{104p}

High-quality Premium Product

Refreshing Orange Flavor

Feature | High-purity Omega-3 EPA and DHA content

High-purity omega-3* that maintains EPA and DHA content.

Based on a daily intake of (500mg combined amount of EPA and DHA), it may help improve blood triglyceride levels and promote better blood circulation.

Omega-3* | Maintains EPA and DHA content.

Feature | High-purity Omega-3 EPA and DHA content

What is Omega-3? Omega-3 Fatty Acid

DHA¹ and EPA² are unsaturated fatty acids that are mainly found in large quantities in fish. The human body cannot synthesize the precursors of DHA and EPA, alpha-linolenic acid, and linoleic acid, respectively. Therefore, they are essential unsaturated fatty acids that must be obtained from external sources through dietary intake.

What is DHA?¹

Omega-3 unsaturated fatty acids are the main components of the brain's nerve tissue and retinal tissue of the eye.

What is EPA?²

It can help smooth blood flow by inhibiting the synthesis of thromboxane A₂, a type of prostaglandin.

Feature | High-purity Omega-3 EPA and DHA content

Global recommended intake of EPA and DHA-containing Oils

The American Heart Association, the World Health Organization, recommends EPA and DHA supplementation.

Feature | Norwegian Deep-sea Fish

Small fish species in the Deep-sea of Norway

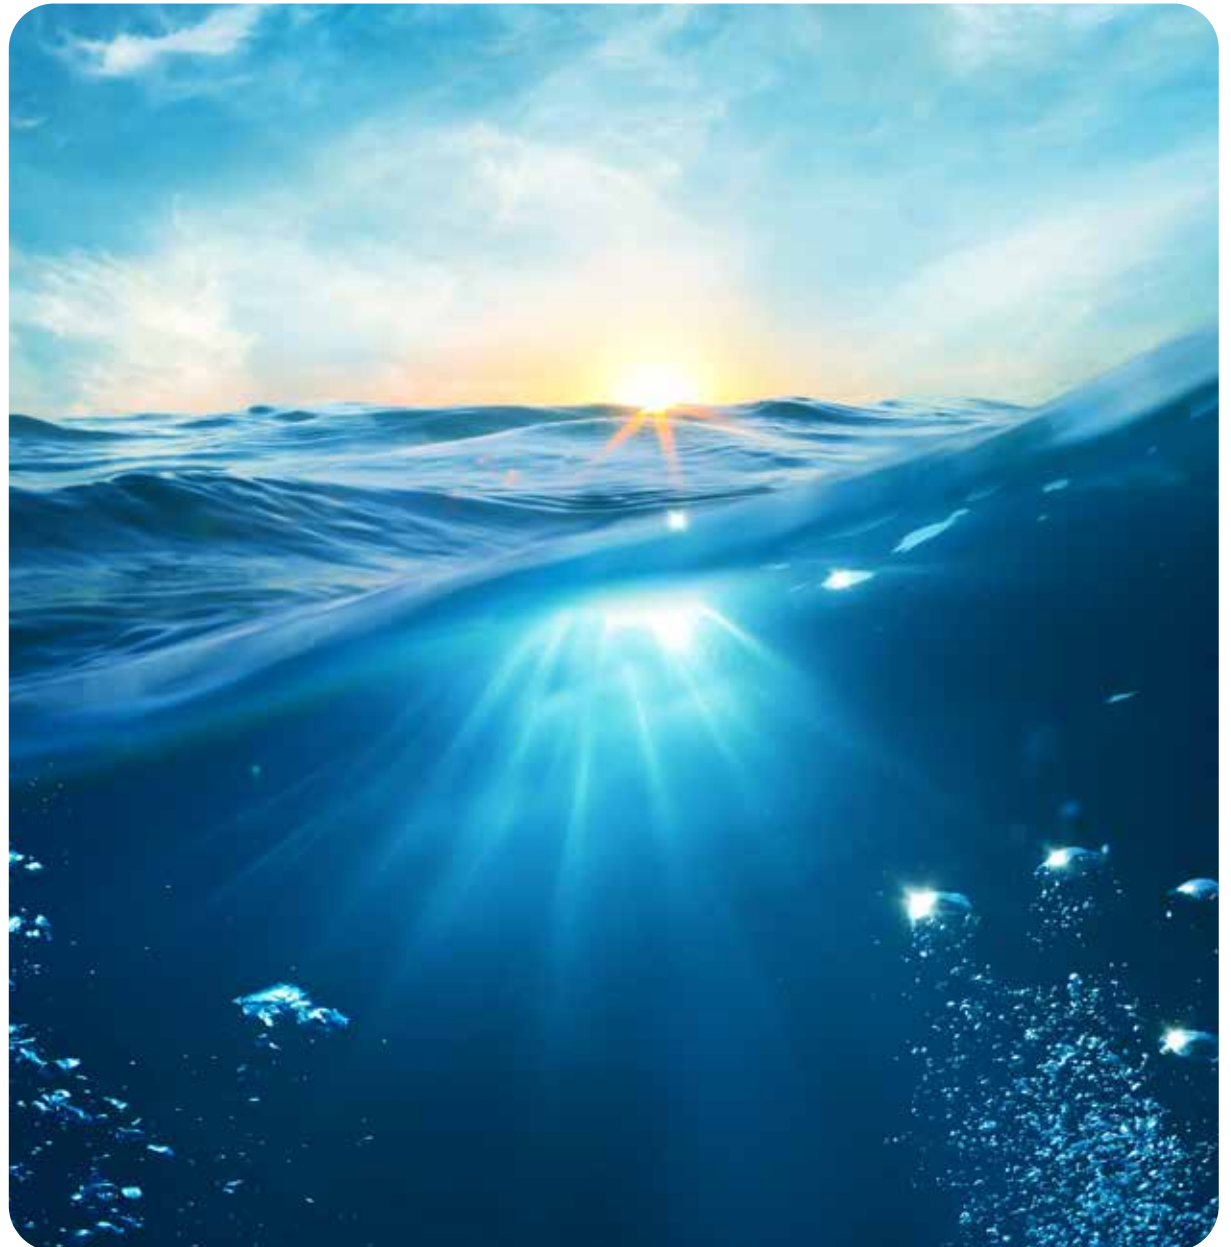

Tok-Tok Hany Chewable is a premium product using raw materials extracted from Norwegian deep-sea fish.

Feature | No concerns about Heavy Metal Contamination

Don't worry about Heavy metal Contamination!

Tok-Tok Hany Chewable is extracted from anchovies, sardines, and mackerel, which are small fish species below the food chain in the deep sea of Norway, so you can relax without worrying about heavy metal contamination.

Information | Product Information

PRODUCT INFORMATION	
[Product name]	Babyrak Tok-Tok Hany DHA (Omega3)
[Content]	500mg X 90 Capsules (45g)
[Ingredients]	Refined fish oil (60% of EPA and DHA), grape seed oil (from Spain), beeswax, erythritol, xylitol, orange flavor (natural flavoring), orange flavoring agents (orange juice, dextrin, lactose, orange oil, pectin), lemon flavor (natural flavoring), yogurt flavor (flavoring), citric acid, enzyme-treated stevia, concentrated orange powder (from Brazil), soy lecithin. Capsule ingredients: glycerin, gelatin, tapioca starch powder (tapioca starch, maltodextrin, gum arabic), tapioca starch mixture powder, edible oil powder, lemon flavor (natural flavoring), processed oil powder, turmeric color, enzyme-treated stevia, mixed carmine agents {carmine agents (dextrin, carmine), dextrin,safflower color}. Contains fish (mackerel), soybean, milk, and pork.
[Directions]	Take 3 capsules per serving, chew thoroughly with the shell, twice a day. Take 3 capsules per serving, swallow with plenty of water, twice a day.
[Precautions for ingestion]	If you experience symptoms of gastrointestinal disorders or indigestion while taking the product, discontinue use. Depending on individual physical conditions, discontinue use if abnormal symptoms occur discontinue use if abnormal symptoms occur. Do not take the product if there is any problem with the product before taking it. If you have an allergy to certain ingredients, check the ingredient list before taking it. Consult a specialist if taking medication (anticoagulants, antiplatelets, antihypertensive drugs, etc.). Skin-related adverse reactions may occur depending on the individual. If any abnormal case occurs, discontinue use and consult a specialist.
[Storage]	Store in a cool place away from direct sunlight as it may be affected by moisture and heat. Keep out of reach of children. Due to the soft nature of the capsule, the capsule shell may melt at high temperatures, so avoid storing in a car during the summer or near a heating device during the winter.

Babyrak Premium Calcium PGA Plus

베이비락 튼튼 칼슘 PGA 플러스

1,500mg x 60 Tablets (90g)

Design

Contents

Type. Chewable

Feature

Contained PGA ^{110p}

PGA(Poly Glutamic Acid)

**Contained Whey Calcium
+ Seaweed Calcium** ^{111p}

Whey Calcium + Seaweed Calcium = 210mg

No Carbonate Calcium ^{111p}

Contained Vitamin D

Contained Zinc

Milk Cocoa Flavor

Contained PGA* that can help promote Calcium Absorption in the body

It contains 60 mg (based on daily intake) of PGA*,
which can help promote
calcium absorption in the body.

What is PGA (Poly Glutamic Acid)?*

PGA = Poly Gamma Glutamic Acid It is a patented raw material recognized by the Ministry of Food and Drug Safety that can help promote calcium absorption in the body.

No! Calcium Carbonate

Whey Calcium + Seaweeds Calcium OK!

Babyrak Premium Calcium PGA Plus
didn't use calcium carbonate.
It contains 210 mg of Whey Calcium + Seaweeds Calcium.

What is Seaweed Calcium?*

Seaweed calcium is calcium extracted from seaweed in the ocean.

What is Whey Calcium?*

Calcium extracted from milk is called 'Whey calcium'.

Information | Product Information

PRODUCT INFORMATION	
[Product name]	Babyrak Premium Calcium PGA Plus
[Content]	1,500mg x 60 Tablets (90g)
[Ingredients]	Whey calcium (milk calcium, lactic acid calcium), seaweed powder, poly-gamma-glutamic acid, zinc oxide, vitamin D3 compound (sucrose, arabic gum, corn starch, medium-chain triglycerides, silicon dioxide, vitamin D ₃ , DL-alpha-tocopherol), crystalline glucose, D-sorbitol, maltodextrin, xylitol powder, mixed fat powder (defatted milk powder, whey powder), vegetable cream powder (corn syrup, palm oil, whey powder, dipotassium phosphate, silicon dioxide, lecithin, glyceryl monostearate), U-cream powder (corn syrup, palm oil, mixed milk powder, U-cream, whey powder, dipotassium phosphate, glyceryl monostearate, lecithin, milk flavor, salt, vitamin B ₂), cocoa powder, cocoa flavor powder (maltodextrin, cocoa flavor (synthetic flavor)), hydroxypropyl methylcellulose, vanilla flavor powder (dextrin, vanilla flavor 2 (synthetic flavor), arabic gum, ethylvanillin (synthetic flavor), vanilla flavor 1 (synthetic flavor), ethyl maltol, cream flavor key base (synthetic flavor)), magnesium stearate, enzyme-treated stevia, milk protein hydrolysate, contains soy
[Directions]	Take two tablets once a day and chew them.
[Precautions for ingestion]	Please consult with a specialist if you have hypercalcemia or are taking medication. Check the expiration date before taking. If you have a specific constitution or allergy, please check the ingredients before taking. If any unusual symptoms occur, stop taking the product and consult with a specialist or contact the customer service center. Do not consume the silica gel desiccant included in the product.
[Storage]	Store in a cool place, avoiding direct sunlight, high temperatures, and humidity. After opening, make sure to close the lid tightly as humidity may occur. Keep out of reach of children.

Information | Nutrition Information

NUTRITION INFORMATION

[Poly Gamma Glutamic Acid]	It can help promote calcium absorption in the body.
[Calcium]	Needed for bone and teeth formation, necessary for maintaining nerve and muscle function, necessary for normal blood clotting, and helps reduce the risk of osteoporosis.
[Zinc]	Essential for normal immune function and necessary for normal cell division.
[Vitamin D]	Necessary for the absorption and utilization of calcium and phosphorus, needed for bone formation and maintenance, and may help reduce the risk of osteoporosis.
[Serving Size]	2 Tablets (3,000 mg)
[Amount Per Serving]	Calories 10 kcal, Carbohydrates 2 g(1 %), Protein 0 g(0 %), Fat 0 g(0 %), Sodium 10 mg(1 %), Calcium 210 mg(30 %), Zinc 6 mg(71 %), Vitamin D 3 µg(30 %), γ-PGA 60 mg ※The values in parentheses represent the daily nutritional reference values.

※This product can be exchanged or compensated according to the Consumer Dispute Resolution Standards notified by the Fair Trade Commission.

※To report any abnormal cases, please call 1577-2488 without an area code.

※This product is not a medicine for the prevention or treatment of diseases.

※This product has been manufactured in the same facility that also processes ingredients such as allergens
(chicken, duck, quail eggs, buckwheat, peanuts, wheat, mackerel, crab, shrimp, pork, peaches, tomatoes, sulfites, walnuts, chicken, beef, squid, shellfish including oysters, abalone, and mussels, pine nuts, etc.).

Babyrak Premium Colostrum Chewable

베이비락 맛있는 튼튼 초유

1,200mg x 60 Tablets (72g)

Design

Contents

Type. Chewable

Feature

Used Whey Calcium and Seaweed Calcium ^{117p}

Contains 180mg of Calcium (based on a daily intake of 5 Tablets)

No Carbonate Calcium ^{117p}

Contained Xylitol

0% Necessary Trans Fat

Remove unnecessary fats like trans fat, saturated fat, and cholesterol

Delicious Milk Flavor

No! Calcium Carbonate

Whey Calcium + Seaweeds Calcium OK!

Calcium carbonate is not used,
so it can be consumed without worry.
It contains 180 mg of Whey Calcium + Seaweeds Calcium.
(Based on daily intake of 5 tablets)

What is Seaweed Calcium?*

Seaweed calcium is calcium extracted from seaweed in the ocean.

What is Whey Calcium?*

Seaweed calcium extracted from seaweed is an ideal calcium nutrient source boasting a high absorption rate of 50% into the human body.

PRODUCT INFORMATION

[Product name]	Babyrak Premium Colostrum Portable
[Content]	1,200mg x 60 Tablets (72g)
[Ingredients]	Skim milk powder (domestic), powdered crystalline glucose, dextrin, 10% Dutch processed coconut oil powder, whole milk powder (domestic), seaweed calcium (Lithothamnion corallioides, calcified red algae), 8.8%, D-sorbitol, xylitol 2.5%, magnesium stearate, chicory root extract powder, whey calcium, zinc oxide, hydrolyzed milk protein powder, 5 mixed lactic acid bacteria powder, 17 kinds of mixed fruit and vegetable powder, enzyme-treated stevia, vitamin D3 mixed preparation {arabia gum, sugar, cornstarch, processed oil palm oil, silicon dioxide, vitamin D3, DL-alpha-tocopherol} 0.1%, 7-berry mixed powder (contains soybeans, milk, tomatoes, and wheat)
[Directions]	Take one tablet 1-5 times a day, dissolve it in your mouth or chew it before swallowing
[Caution]	If you have a special constitution or an allergy-prone constitution, you may occasionally experience hypersensitivity reactions depending on the individual, so please check the ingredients before consuming. If any abnormal symptoms occur depending on your personal physical condition, please discontinue use. Please be careful as the packaging may cause injury when opening or consuming the product.
