

Mini Massage Gun

Powerful portable massage gun
Overwhelming quality and distinctive design

POINT 01.

Compact size for use anywhere

Lightweight at 340g, it's easy to carry for extended periods without straining your wrist. Its compact size makes it a portable companion for golf, exercise, and travel. Enjoy the convenience of using a sleekly designed massage gun wherever and whenever you like!

Product size: 157x80x45 mm

POINT 02.

Differentiated, simple design

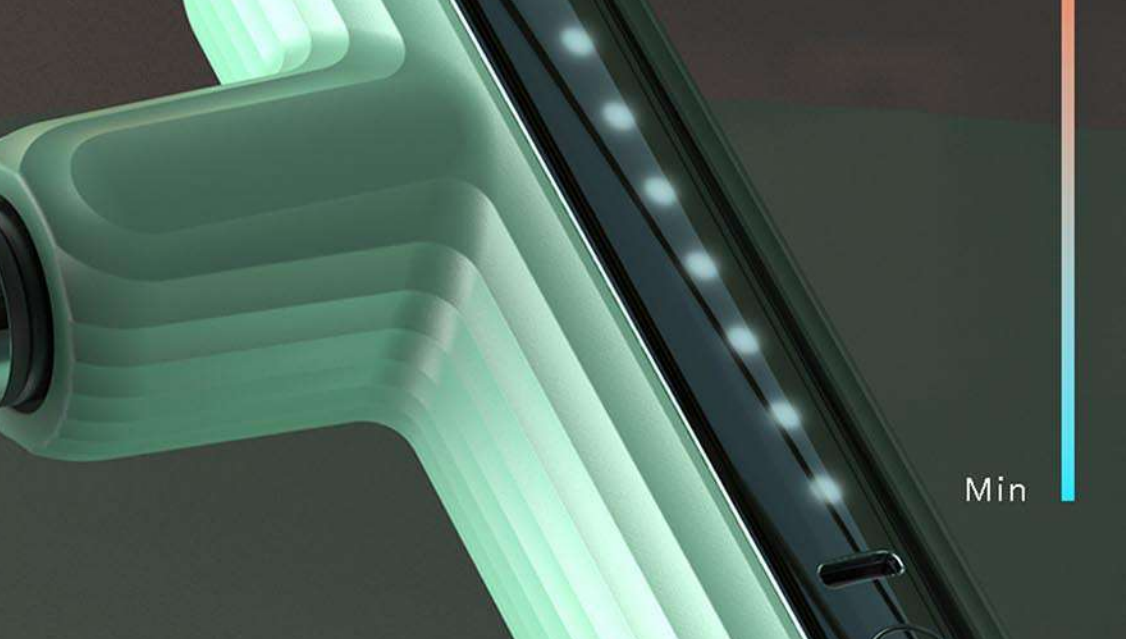

An elegantly simple design that can be used by people of all ages without hesitation. You can choose your preferred color from three options: pink, gray, and green

POINT 03.

Equipped with a high-performance ultra-quiet motor

The brushless ultra-quiet motor, with its low noise level (45dB), offers a powerful output while maintaining stable speed and a long lifespan. It allows you to adjust the massage intensity to your preference, providing a consistent and reliable massage experience, delivering unprecedented comfort and strength.

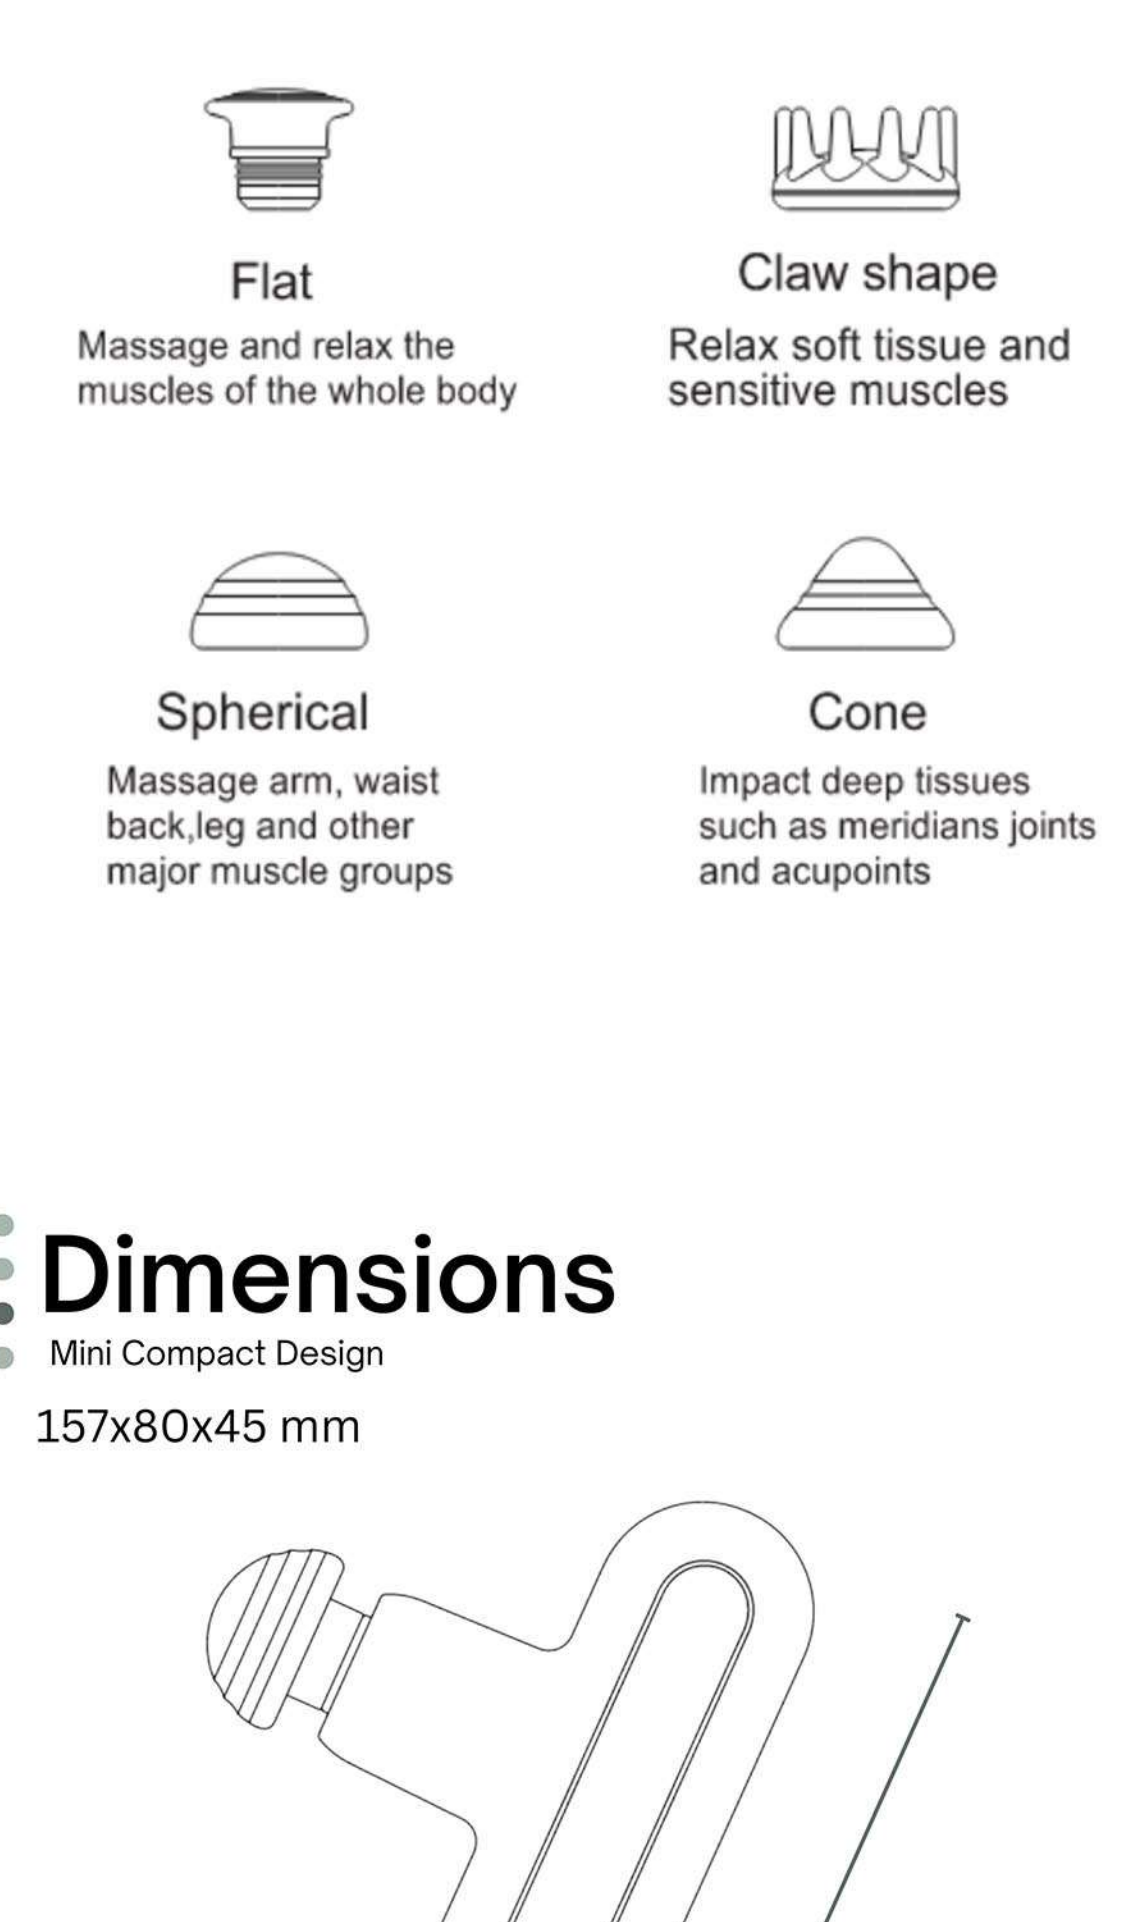

The sound of work 10 minutes / day Maximum strength

POINT 04.

A one-button, four-level intensity adjustment with pressure feedback

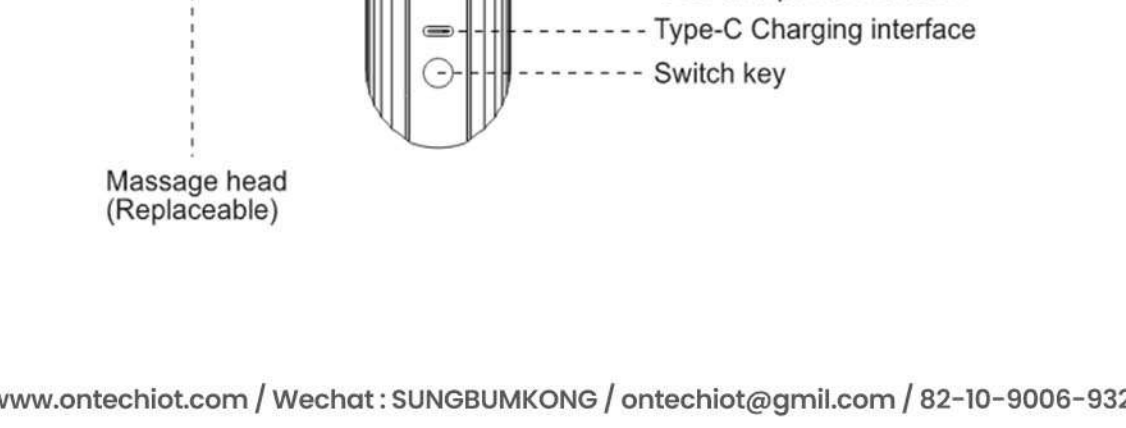

It is subdivided into four levels, from a gentle massage mode to a powerful massage mode, all controlled with a single button. Users can adjust it according to their condition and preferences. The one-button operation makes it easy for the elderly to use, and an LED indicator displays the applied pressure, allowing you to intuitively see the strength of the massage.

POINT 05.

Four interchangeable heads

Select the right head from large muscles to small muscles, for a more precise and satisfying massage experience tailored to your body.
