

NABIYA MESHFLEX

Engineered for Comfort, Styled for Performance

PROBLEM WITH SPORT SOCKS

Friction Injuries

Low-quality socks lack cushioning, causing painful blisters during active use.

Poor Moisture Control

Inadequate fabrics trap sweat, leading to discomfort, odor, and overheating.

Easily Worn Out

Thin or weak fibers tear quickly, making them unsuitable for long-term wear.

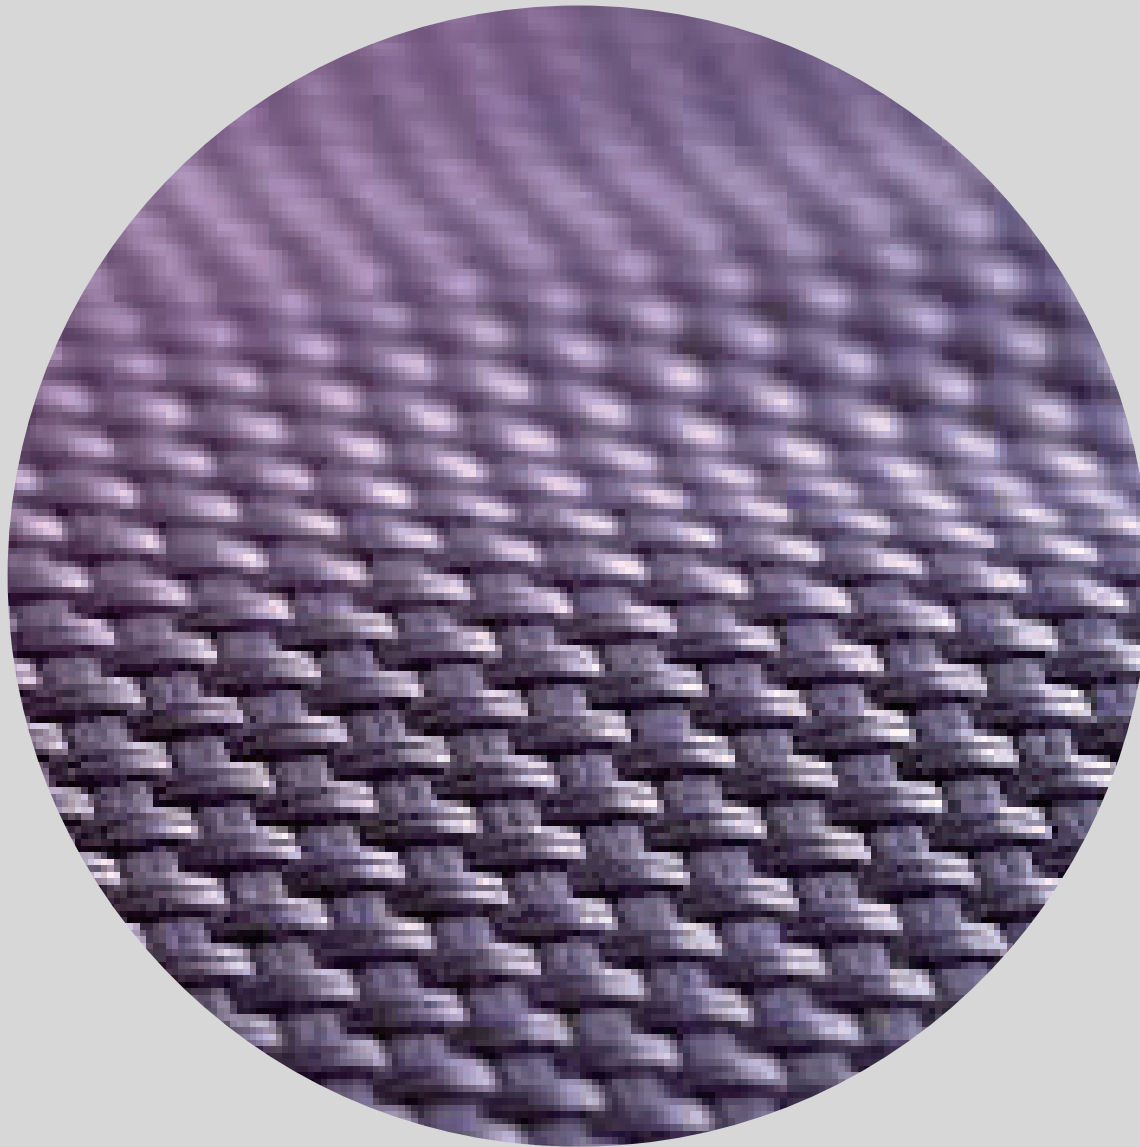

WHY MESHFLEX?

Engineered for peak performance

With breathable mesh zones,
high-absorption yarns,
and targeted cushioning,
it keeps your feet cool, dry, and
blister-free — even during long
hours on the move.

STAYCOOL TECHNOLOGY

Durable & Lightweight

Quick Dry

Soft-Touch Comfort

UV Protection

An advanced performance nylon yarn designed
for temperature regulation and moisture control

WHERE STYLE MEETS PERFORMANCE

Designed for a sleek, sporty look with premium glitter-print silicone that stays sharp—wear after wear
