

5-min hair dye! Comfortable, low-irritation gray hair coverage with no smell.

Cellreborn Black Bean LPP Quick Speed Hair Color 60ml

1. Hair becomes healthier with repeated dyeing.

BLACK BEAN

Containing Vitamin E and unsaturated fatty acids, it effectively addresses gray hair and promotes hair health. Isoflavones, four times stronger than in yellow soybeans, boost nutrient absorption, while lecithin revitalizes both the scalp and hair.

LPP PROTEIN (Collagen, Keratin, 17 amino acids)

Small-particle LPP protein deeply penetrates the hair, nourishing damage caused by dyeing and smoothing the hair. This helps the color to appear uniform without patchiness and prevents further damage.

Cellreborn's unique dye composition
create a rich,
even color without streaks

2. Ammonia-Free! Unscented

If you need to cover gray hair regularly, you can achieve quick and comfortable dyeing with a fragrance-free, low-irritation hair dye that doesn't contain harsh ammonia.

3. Reduced Scalp and Hair Irritation

Completed Skin Irritation Test!
