

EWG's Skin Deep®
Cosmetics Database

EWG is a non-profit American environmental organization that rates harmful ingredients in cosmetics and consumer products on a scale of 0 to 10.

Safety Grade Evaluation Criteria for Cosmetic Raw Materials The lower the grade, the higher the safety of the raw material.

Safe	Moderate	Dangerous
1-2	3-6	7-10

Bubble Monkey Candy Bomb is designed to minimize skin irritation.

This is a safe bath additive made using only **EWG 1-2 GREEN** Grade ingredients.

1	2	1	2	1	1	1	1

"Bath Bomb carefully made with the heart and hands of mothers"

Happy Works Company CEO Jang Yoon-jung

I have been living as a mother of three children for 13 years, taking a break from my career to raise my children. For me, taking a bath with my children or taking a bath alone after they are asleep is a great comfort. I have always had a thirst for work, so I studied fragrance steadily for 5 years and became a perfumer. With the help of my husband, who works in the cosmetics industry, I was able to create a bath product that my children can enjoy safely and enjoy.

How to use carbonated bath bomb

STEP 1
Fill the bathtub with warm water.

STEP 2
Put some candy bomb fondant in the tub.

STEP 3
After bathing, rinse lightly with water.

How to use bubble bath bomb

STEP 1
Before filling the bathtub with water, put in a candy bomb (bubble bath bomb).

STEP 2
Use the shower and faucet to create bubbles.

STEP 3
After bathing, rinse gently with water.

HAPPY DAILY I SUPPORT YOU

BRAND STORY

"Bathing is not about washing, it's about enjoying."

Busy daily life leaves no time or leisure.
The condition of happiness is "time."
To think about happiness, you need leisure.
A busy daily life cannot be reversed, but can't you give up your own time?

That's why I thought about the joy of "bathing" and that time.

We think about small but certain happiness every day.

I hope that bathing becomes a culture that makes the mind and body healthy, not just a simple washing act.

SIGNATURE LINE - 9 scents and colors of bath therapy
