## Have you ever heard of personal color?

Personal color refers to colors that harmonize  
with the colors naturally present in one's body.

By matching clothing, cosmetics, jewelry,  
and other items with colors that suit you perfectly.  
You can achieve a vibrant and lively appearance  
as you nurture and refine your style.

## Lumicrion lighting accurately represents colors.

You can now confirm the colors that suit you best at home.  
Chromaticity, which refers to the colors as seen in sunlight.  
We achieve vibrant color representation with LED lighting  
that has a chromaticity of over 95%.
