# Have you had any inconveniences with your mug tumbler in daily life?

*Tumblers that lack a lid or come with poorly sealed lids often have poor insulation and are inconvenient to use in daily life*

*Tumblers that make loud noises when placed on tables or desks can be difficult to use in quiet indoor spaces.*

*Tumblers that fail to retain heat or keep drinks cold ultimately fail to serve their purpose.*

*Tumblers that show discoloration or develop odors over time due to peeling inner coating or extended use.*

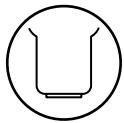

So, We at Sillymann suggest

## Well Tumbler Pro Table Mug

### 360° Rotating flip

Easily switch from straw mode to drink, direct drink spout opening, and sealing.

### Quiet, anytime and anywhere

With a silicone bottom's anti slippery pad, enjoy a noiseless tumbler experience wherever you are.

### Excellent Temperature Retention

Double-wall vacuum insulation ensures outstanding heat and cold retention

### Exceptional Durability

Durable and safe, made of premium 304 stainless steel

## Target consumers for **Well Tumbler Pro Table Mug**

Consumers who pursue a wellness lifestyle and are highly interested in practicing eco-friendly consumption.

Consumers who prefer making their own coffee or tea at home and care about creating a cozy, stylish home café atmosphere.

Consumers who work long hours indoors, frequently drink coffee, water, or other beverages, and prioritize convenience.

Consumers who want to use a tumbler in a place that requires silence, such as a library

Consumers who prioritize health and consistently make an effort to drink a certain amount of water each day.

Consumers who want meaningful and useful gifts with friends, family, or coworkers.

## Special features of Well Tumbler Pro Table Mug

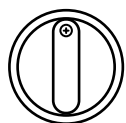

### 7 Benefits of Well Tumbler Pro Table Mug

- 01 One handed operation possible Tritan flip, 360° rotatable spill proof flip lid
- 02 Flow design that prevents beverage residue from accumulating after drinking
- 03 One lid compatible with two different capacities of tumbler body
- 04 Stable grip with wave-patterned TPE inside of handle
- 05 Silicone bottom pad for anti slippery and noise
- 06 Long-lasting temperature retention
- 07 Sensuous colors with cutting edge gradient technology

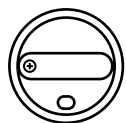

## One handed operation possible Tritan flip, 360° rotatable spill proof flip lid

It is convenient to use regardless of whether you are right-handed or left-handed, and the 360-degree rotating flip has a large finger contact area, so you can easily rotate it with one hand.

### Sealed Mode

When used in daily life, it prevents dust from entering and provides light sealing.

### Drinking Mode

Optimized spout ensures a steady flow, allowing safe consumption of both hot and cold beverages.

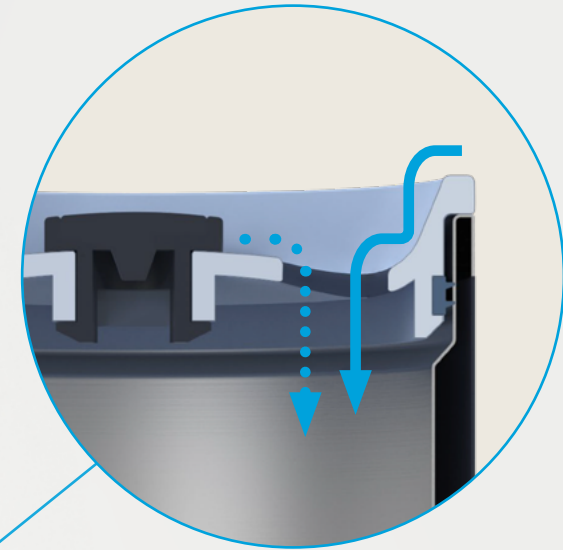

\* Note: The 360° rotating flip lid is designed to minimize leakage, but it is not completely leak-proof.

## Flow design that prevents beverage residue from accumulating after drinking

Designed to ensure that any remaining drops after direct sipping flow smoothly back into the tumbler, without pooling on the cap surface.

\*The transparent cap also allows you to easily check the remaining amount of beverage inside.

## One lid compatible with two different capacities of tumbler body

The Pro Table Mug is available in two sizes: 430ml and 670ml. The caps are compatible with both sizes, allowing you to choose your preferred capacity with just one cap

### Well Tumbler Pro Table Mug Size .....

**Tall**  
355ml

**Grande**  
473ml

**Venti**  
591ml

**Trenta**  
887ml

Pro Table  
Mug  
**430ml**

Pro Table  
Mug  
**670ml**

The capacity indicated is the same as the capacity standard for packaging coffee sold in general coffee shops.

## Stable grip with wave-patterned TPE inside of handle

The 3D wave pattern on the inside of the handle adds a visual appeal, while the TPE material ensures a secure and comfortable grip

## Silicone bottome pad for anti slippery and noise

A silicone stopper is attached to the bottom of the tumbler, effectively reducing noise and preventing slipping when placed on desks or floors.

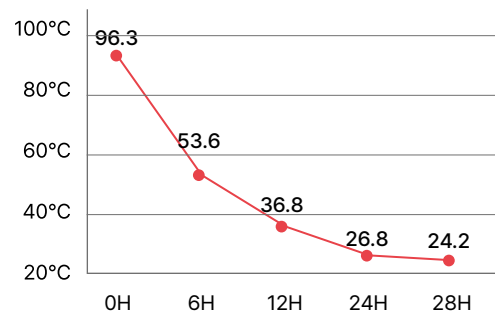

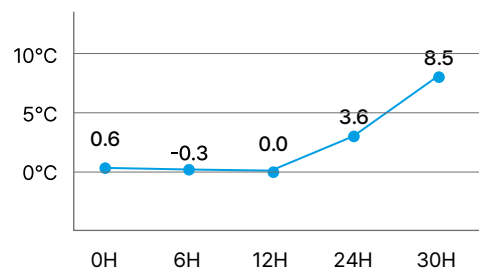

## Long-lasting temperature retention

Made with durable and safe 304 stainless steel, this product features a double-wall vacuum structure and special copper coating that provide excellent thermal insulation, keeping your beverages hot or cold for extended periods.

Keeping warm for 5 hours at 60°C 🔥

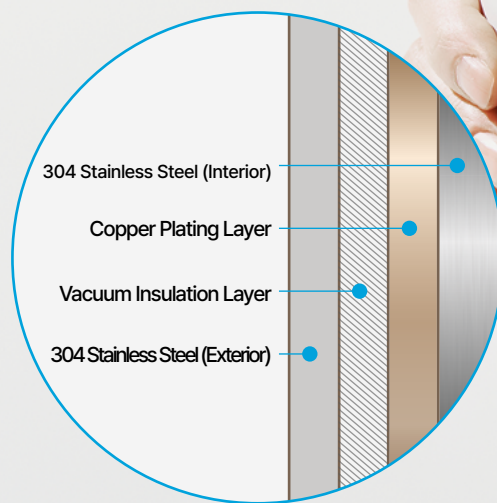

Keeping cool for 29 hours below 8°C ❄️

\*This test was conducted indoors with the lid closed and no airflow.

\*Actual performance may vary depending on the user's environment.

## Sensuous colors with cutting edge gradient technology

A gradient finish applied to deep navy and deep white creates Sillymann's unique color identity, while a metallic touch enhances its aura and sense of durability.

Sillymann is one of the biggest silicone kitchenware manufacturers in Korea and has its own domestic factory and distribution center in Paju, which is safe and clean, measuring approximately 3,000 SQM.

We supply product to department stores, big super markets, many e commerce channels in Korea already has formed a large fan base of housewives.

Silicone is originated from a natural material that is heat-resistant, non-toxic, and non-reactive, and is flexible and durable. It can withstand high temperatures and is suitable for use in ovens, microwaves, and freezers, making it suitable for convenient cooking using indirect heat for whom wants to cook simply. Sillymann uses silicon as its main material and plans and produces a variety of products containing silicon, including kitchen appliances, baby products, outdoor products, and small home appliances. Sillymann will continue to strive to create products that meet customer satisfaction through continuous research and development.
