Have you had any inconveniences with your tumbler in daily life?

Tumblers with loose-fitting lids can be inconvenient to store and carry.

Tumblers that make loud noises when placed on tables or desks can be difficult to use in quiet indoor spaces.

Tumblers that fail to retain heat or keep drinks cold ultimately fail to serve their purpose.

Tumblers whose inner coating has peeled off or whose color has changed or smells after long-term use

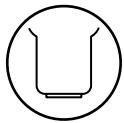

So, We at Sillymann suggest

Well Tumbler Pro

360° Rotating flip

Easily switch from straw mode to drink, direct drink spout opening, and sealing.

Quiet, anytime and anywhere

With a silicone bottom's anti slippery pad, enjoy a noiseless tumbler experience wherever you are.

Excellent Temperature Retention

Double-wall vacuum insulation ensures outstanding heat and cold retention

Exceptional Durability

Durable and safe, made of premium 304 stainless steel

Target consumers for **Well Tumbler Pro**

Consumers who pursue a wellness lifestyle and are highly interested in practicing eco-friendly consumption.

Consumers who work long hours indoors, frequently drink coffee, water, or other beverages, and prioritize convenience.

Consumers who prefer large-capacity tumblers to ensure sufficient water intake during exercise

Consumers who want to use a tumbler in a place that requires silence, such as a library

Consumers who need a large capacity tumbler for long-term tasks such as long-distance driving

Consumers who prioritize health and consistently make an effort to drink a certain amount of water each day.

Special features of **Well Tumbler Pro**

8 Benefits of Well Tumbler Pro

- 01 One handed operation possible Tritan flip, 360° rotatable spill proof flip lid
- 02 Flow design that prevents beverage residue from accumulating after drinking
- 03 Three different pleasures in one tumbler
- 04 One lid compatible with two different capacities of tumbler body
- 05 Stable grip with wave-patterned TPE inside of handle
- 06 Silicone bottom pad for anti slippery and noise
- 07 Long-lasting temperature retention
- 08 Sensuous colors with cutting edge gradient technology

One handed operation possible Tritan flip, 360° rotatable spill proof flip lid

It is convenient to use regardless of whether you are right-handed or left-handed, and the 360-degree rotating flip has a large finger contact area, so you can easily rotate it with one hand.

Sealed Mode

When used in daily life, it prevents dust from entering and provides light sealing.

Drinking Mode

Optimized spout ensures a steady flow, allowing safe consumption of both hot and cold beverages.

Straw Mode

Convenient and immediate drinking is possible through a straw during moments when you need to concentrate, such as driving.

* Note: The 360° rotating flip lid is designed to minimize leakage, but it is not completely leak-proof.

Flow design that prevents beverage residue from accumulating after drinking

Designed to ensure that any remaining drops after direct sipping flow smoothly back into the tumbler, without pooling on the cap surface.

*The transparent cap also allows you to easily check the remaining amount of beverage inside.

03 Three different pleasures in one tumbler

The screw-type cap prevents leakage, allowing you to enjoy your drink without worries. Depending on your needs or situation, you can conveniently switch between direct drinking and straw modes

SCREW CAP

DIRECT SIP + ICE PROTECTOR

STRAW SIP

One lid compatible with two different capacities of tumbler body

Available in two large capacities—1020ml and 1200ml—this bottle allows for extended hydration with just one refill. The compatible caps fit both sizes, letting you choose the capacity that best suits your needs.

The capacity indicated is the same as the capacity standard for packaging coffee sold in general coffee shops.

Stable grip with wave-patterned TPE inside of handle

The 3D wave pattern on the inside of the handle adds a visual appeal, while the TPE material ensures a secure and comfortable grip

Silicone bottom pad for anti slippery and noise

A silicone pad is attached to the bottom of the tumbler, effectively reducing noise and preventing slipping when placed on desks or floors.

Long-lasting temperature retention

Made with durable and safe 304 stainless steel, this product features a double-wall vacuum structure and special copper coating that provide excellent thermal insulation, keeping your beverages hot or cold for extended periods.

Keeping warm for 7 hours at 60°C 🔥

Keeping cool for 61 hours below 8°C ❄️

*This test was conducted indoors with the lid closed and no airflow.

*Actual performance may vary depending on the user's environment.

Sensuous colors with cutting edge gradient technology

A combined gradient colors, deep navy and deep white create Sillymann's unique color identity, and metallic feels emphasizes its aura and durability.

Sillymann is one of the biggest silicone kitchenware manufacturers in Korea and has its own domestic factory and distribution center in Paju, which is safe and clean, measuring approximately 3,000 SQM.

We supply product to department stores, big super markets, many e commerce channels in Korea already has formed a large fan base of housewives.

Silicone is originated from a natural material that is heat-resistant, non-toxic, and non-reactive, and is flexible and durable. It can withstand high temperatures and is suitable for use in ovens, microwaves, and freezers, making it suitable for convenient cooking using indirect heat for whom wants to cook simply. Sillymann uses silicon as its main material and plans and produces a variety of products containing silicon, including kitchen appliances, baby products, outdoor products, and small home appliances. Sillymann will continue to strive to create products that meet customer satisfaction through continuous research and development.
