10

03 3 types of silicone steamers for different types of convenience food

With three different shapes and sizes of silicone steamers, you can choose one according to your favorite cooking style.

Easyway Pot steamer

The 900ml capacity and size of Easyway Pot steamer is enough to cook home convenience foods such as steamed eggs, instant soup, and frozen fried rice.

Easyway Multi steamer

The 1,100ml capacity and size of Easyway Multi steamer is enough for simple cooking such as frozen dumplings and skewers, as well as steaming dishes such as broccoli and cabbage.

Easyway Dish steamer

This 20cm length of silicone dish is large enough to easily cook pizza, bagels, rice cakes, buns, etc. using a microwave.

04 Lid that can be used as a plate

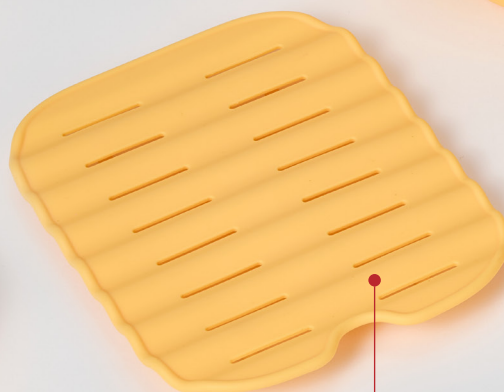

The lids of the Pot and Multi can be used as plates, and the Multi lid has a separate sauce compartment. You can finish a meal in a more useful way.

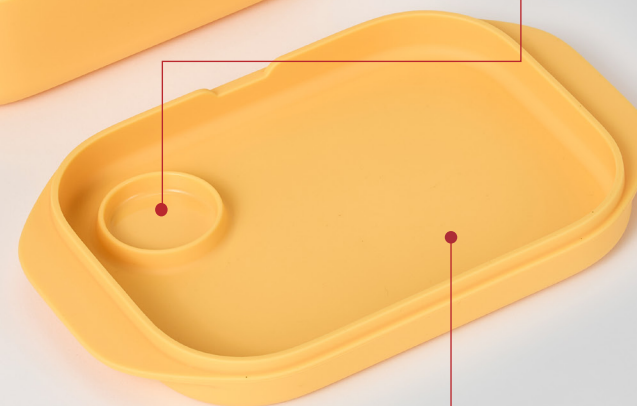

can be using
as a plate

Sauce can be
putting

Detachable stand

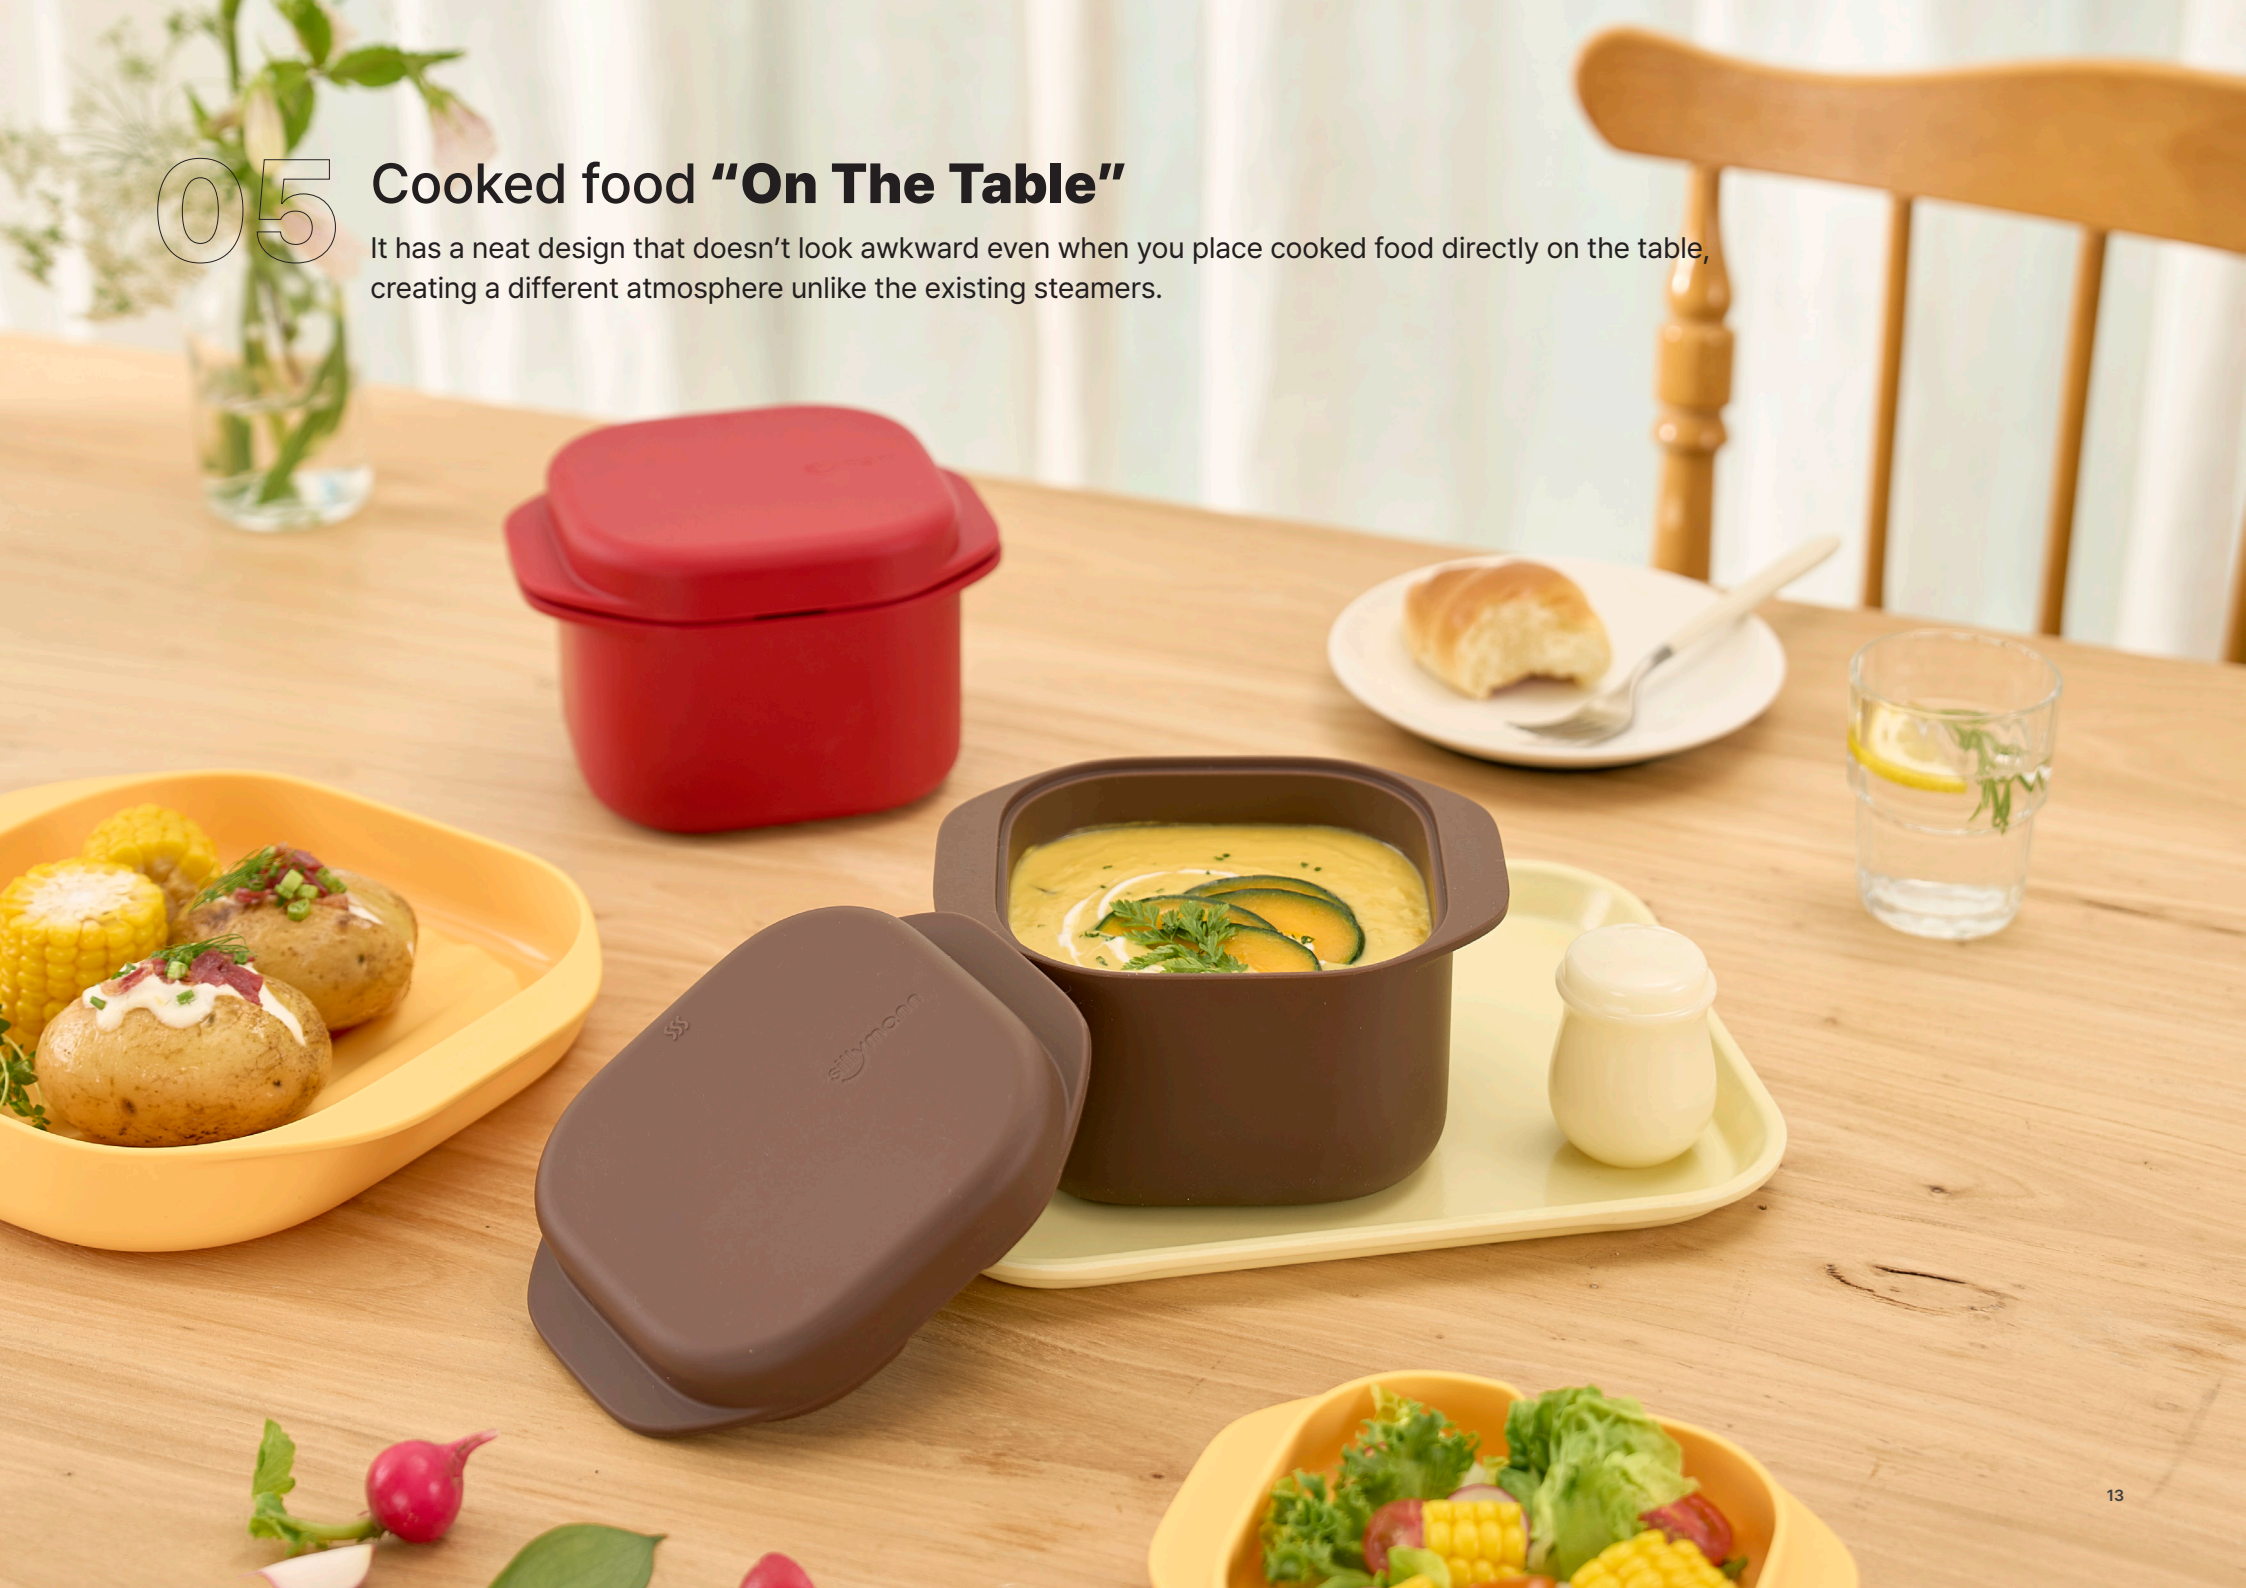

can be using
as a plate

05

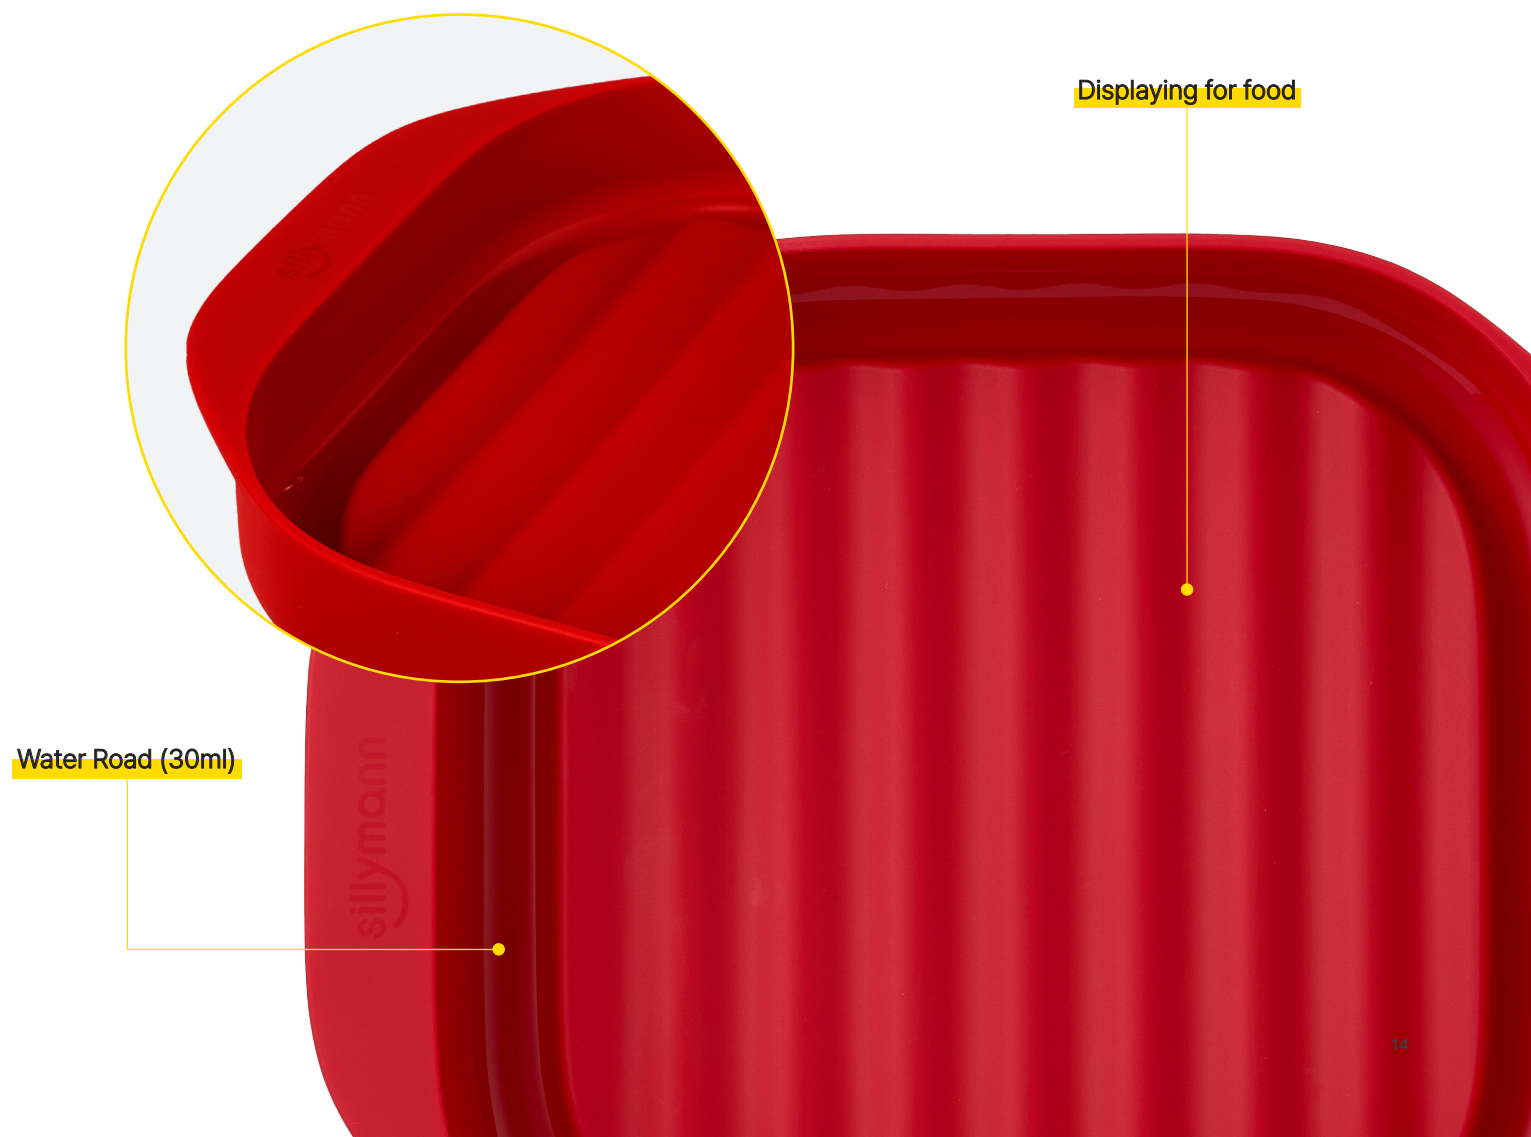

Cooked food "On The Table"

It has a neat design that doesn't look awkward even when you place cooked food directly on the table, creating a different atmosphere unlike the existing steamers.

06 Make food more moist by applying **"Water Road"**

"The outside is crispy and the food is more moist." "Water Road" was applied to the Easyway Dish steamer to provide moisture. When cooking in the microwave, add water to the water road and turn it to enjoy moisture food.

07

No dampness, wave structure bottom

The bottom surface of the wave structure prevents oils or moisture from food from accumulating. It is designed to fall into the water road, so you can enjoy your food without it getting soggy.

Easyway Multi steamer's
inner tray

Easyway Dish steamer
with wave structure bottom

08

Design considering convenience and safety

The Easyway silicone steamers are designed with the utmost consideration for customer convenience and safety.

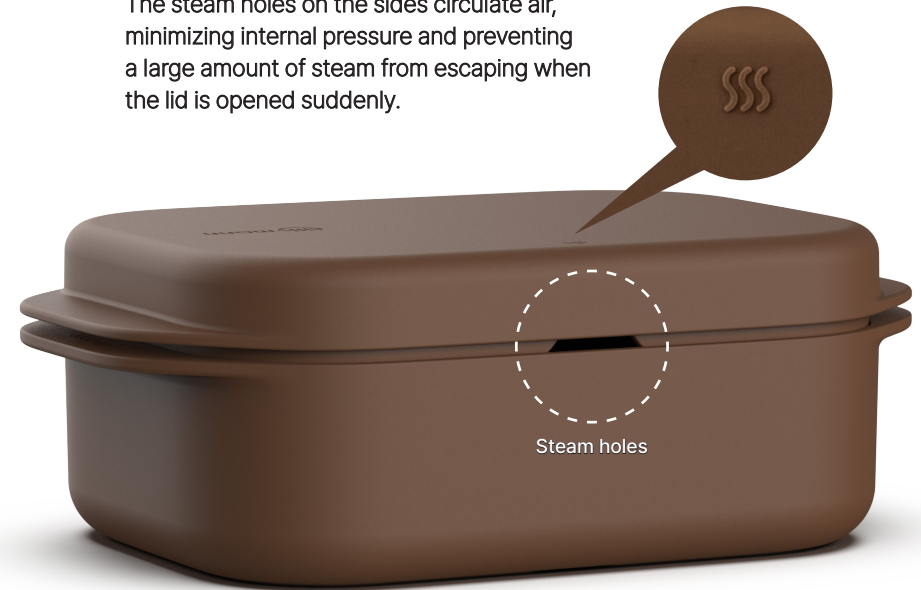

Non-slip handle

The handle features a design with protrusions to prevent slipping, allowing for safe movement.

Steam holes minimize internal pressure

The steam holes on the sides circulate air, minimizing internal pressure and preventing a large amount of steam from escaping when the lid is opened suddenly.

*Applicable only to Easyway Pot and Multi steamer.

08

Design considering convenience and safety

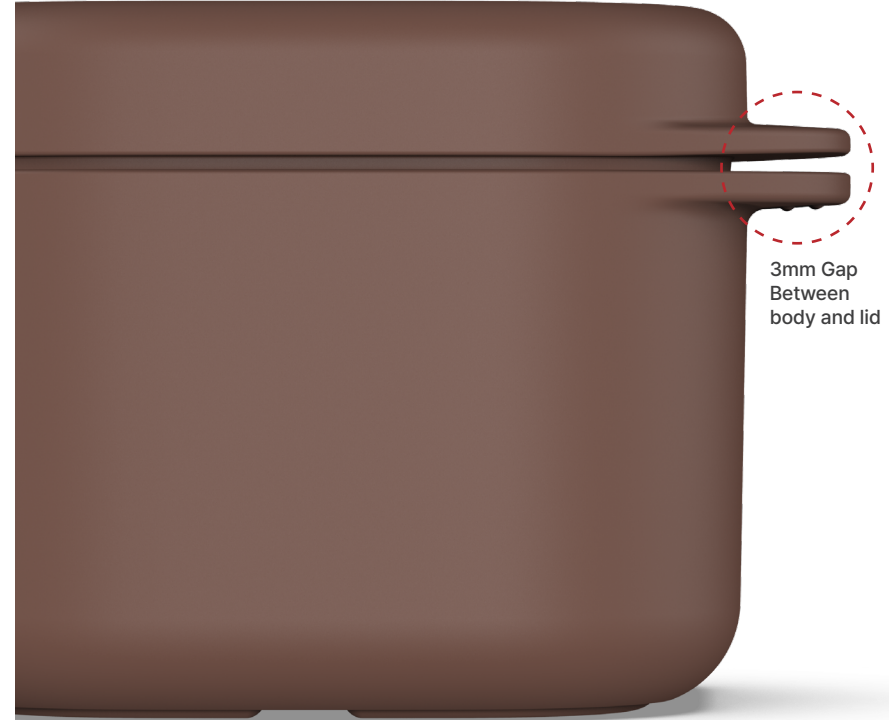

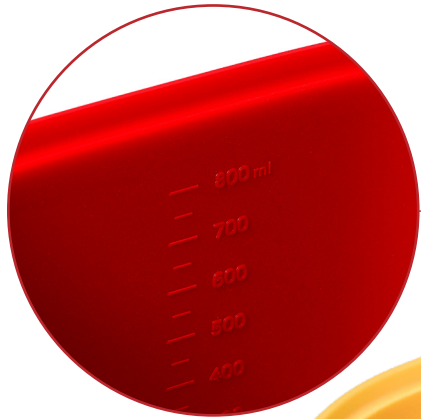

The Easyway silicone steamers are designed with the utmost consideration for customer convenience and safety.

Measuring mark

The measuring marks on the side allow for accurate and convenient measurement of capacity.

*Applicable only to Easyway Pot and Multi steamer.

3mm Gap
Between
body and lid

Easy design to open the lid

Long distance designed between lid and body make it easy to open.

*Applicable only to Easyway Pot and Multi steamer.

09 Hygienic Management

With high heat resistance up to 250°C, it can be used in the microwave, boiled sterilization, and dishwasher, ensuring hygienic management.
