IONCARES

A company that provides “LIVING WATER” and “HEALTHY AIR” beyond clean water and air.

IONCARES is a leading ionizer company in the global market that combines essential science and technology with the health sources that nature provides, namely “water” and “air,” to offer more than just “clean water and air,” but also “living water” and “healthy air.”

The company is certified as a medical device manufacturer and provides products that are EASIER, more CONVENIENT, and SAFER.

IONCARES is a certified medical device manufacturer that continuously conducts research and development to produce high-quality products based on our core technologies and technical expertise.

Alkaline Water Ionizer

IONCARES

Methods of Generating Ionized Water

Water ionizer is a device that creates alkaline and acidic water through electrolysis after removing heavy metal and harmful materials through purification filters for the water supplied from the tap.

Alkaline ionic water does not only aid promotion of health but also can be used in daily lives widely, such as cooking. Acidic water can be used for various purposes such as sterilization and cleansing.

Water Ionizer pH Usage

pH 10.0

Used for cooking or washing fruits.

pH 9.5

Used for drinking and making Coffee&Tea

pH 9.0

Used for drinking and cooking

pH 8.5

Used for drinking all day

PH 7.0(Purified Water)

Suitable to use for taking medicines and making formula for infants.

pH 5.1

Used for Skin and Bathing

pH 4.3

Used for Household Cleaning

pH 3.6

Used for disinfecting surface

pH 2.7

Used for washing vegetables

Why Alkaline Water?

Alkaline ionized water is a powerful antioxidant.

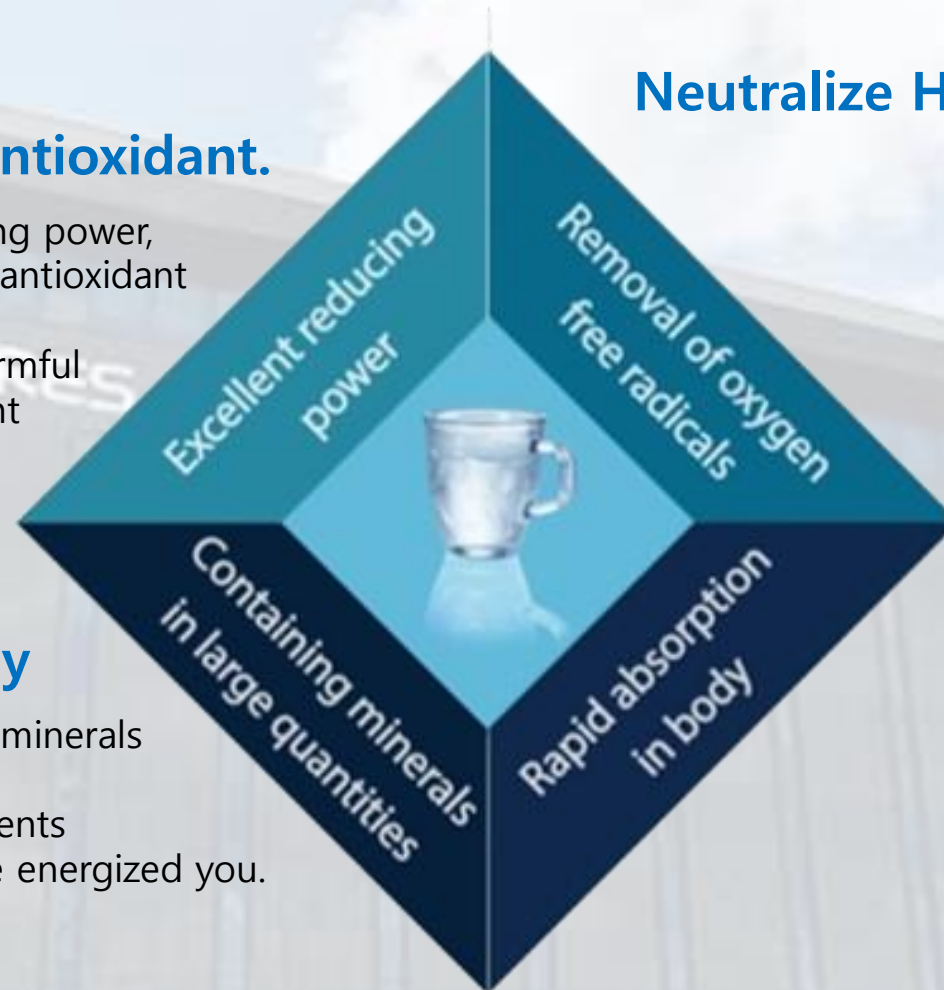

A high ORP value indicates strong oxidizing power, while a low (negative) ORP means strong antioxidant potential.

Alkaline ionized water helps neutralize harmful oxidants in the body thanks to its excellent antioxidant properties.

Rich in Essential Minerals for Your Body

Electrolysis enhances water with essential minerals like calcium and magnesium.

Alkaline ionized water delivers these nutrients in every sip—supporting a healthier, more energized you.

Neutralize Harmful Active Oxygen for a Healthier You

Daily stress and pollution generate harmful active oxygen in the body.

Alkaline ionized water, rich in active hydrogen, helps neutralize these radicals—supporting healthy cells and a stronger body.

Feel the Difference with Micro-Clustered Water

Electrolysis reduces water cluster size for faster absorption and a refreshingly smooth drinking experience—pure hydration you can feel.

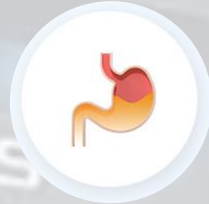

Alkaline Water Rich in Minerals – Calcium, Magnesium, Potassium, Sodium etc

Chronic Diarrhea

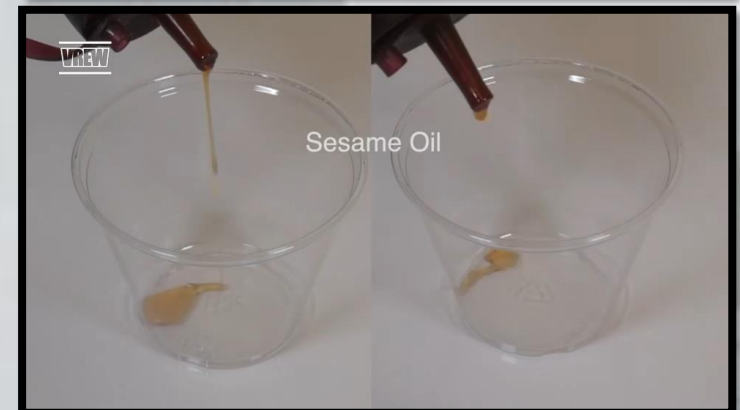

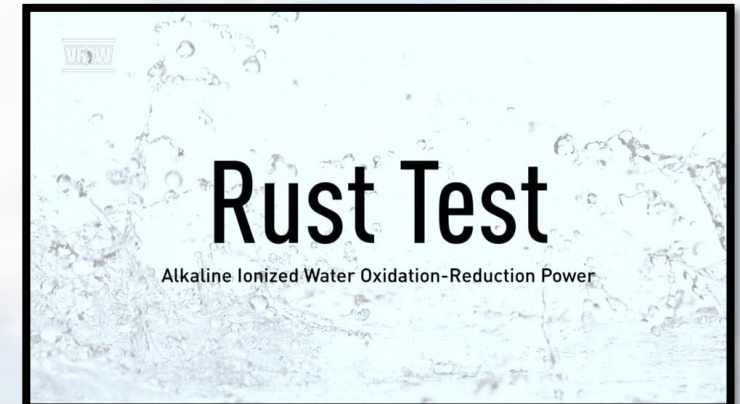

Abnormal
Fermentation
in the Stomach

Indigestion

Excessive
Stomach Acid

What is Healthy water, good water?

- ① The water should taste good because it contains a balanced amount of minerals that are beneficial to the body.
- ② There should be no chemicals or harmful substances such as chlorine, rust, bacteria, and E. coli.
- ③ Alkaline water, like the human body, keeps you healthy.
- ④ The ability to remove free oxygen must be high due to the abundance of free hydrogen.
- ⑤ Small, dense water must be used for quick absorption and good water tastes good.

Combine a Hot & Cold water purifier
with an ionizer into All in one!

Equipped with hot
& cold functions

"Optimized for
consumer needs"

UV Lamp
Sterilization
Nano Filter

"Optimized for
Hygiene
Management"

Slim Design
Minimal Front
Dimensions

"Optimized for
Space Utilization"

New Product is an
optimized product
that enhances
convenience and
hygiene management
compared to existing
models.

IONCARES

Hot/Cold Ionizer Specification

Dimension	180(W)x400(H)x475mm(D)
Rated Voltage	AC 200 ~ 240V, 50/60Hz
Power Consumption	1,900~2,700W(Hot Water), 50~100W(Cold Water)
SMPS Power	250W
pH Generation Range	pH 8.5 ~ pH 9.5(3Steps)
Available Water Pressure	1.5kgf/cm ² ~ 7.0kgf/cm ²
Generating Capacity	2.0Liter/minute(+ -0.5Liter)
Step	Alkaline/Cold Alkaline 3 Step Purifier 1 Step
Cool Water	Peltier Module
Hot Water	Instant Water Heating Method
Purified Water	Direct Feed Type
Electrode	Platinum Titanium Plates (Standard : 5 Plates) (7 Plates & 9 Plates Available)
Control Type	5 inches Touch Color LCD
Filter	Original Filter Recognition Feature (2 STAGE)
Cleaning	Auto Cleaning, Auto Drainage

Products with Hot/Cold functions account for over 60% of the market share and are showing a continuous growing trend in Korea.

IONCARE 9000L

- Manufacture license No.: 4141
- Model no.: Ioncare 9000L
- Dimension : 340 x 340 x 140 mm (W x H x D)
- Rated voltage: AC 220V / 60Hz
- SMPS power 250W
- Micro current regulation: 240 steps
- Display: 7 inches color LCD
- Operation: Touch sensor
- Original filter recognition feature
- Filter: Built in 2pcs
- 9 Platinum coated titanium electrode plates
- Auto cleaning, Auto discharging

IONCARE 9000

- Manufacture license No.: 4141
- Model no.: Ioncare 9000
- Dimension : 340 x 340 x 140 mm (W x H x D)
- Rated voltage: AC 220V / 60Hz
- SMPS power 250W
- Micro current regulation: 240 steps
- Display: 5 inches color LCD
- Operation: Touch sensor
- Original filter recognition feature
- Filter: Built in 2pcs
- 9 Platinum coated titanium electrode plates
- Auto cleaning, Auto discharging

IONCARE 7000

- Manufacture license No.: 4141
- Model no.: Ioncare 7000
- Dimension : 340 x 340 x 140 mm (W x H x D)
- Rated voltage: AC 220V / 60Hz
- SMPS power 250W
- Micro current regulation: 180 steps
- Display: 5 inches color LCD
- Operation: Touch sensor
- Original filter recognition feature
- Filter: Built in 2pcs
- 7 Platinum coated titanium electrode plates
- Auto cleaning, Auto discharging

IONCARE 5000

- Manufacture license No.: 4141
- Model no.: Ioncare 5000
- Dimension : 340 x 340 x 140 mm (W x H x D)
- Rated voltage: AC 220V / 60Hz
- SMPS power 250W
- Micro current regulation: 150 steps
- Display: 5 inches color LCD
- Operation: Touch sensor
- Original filter recognition feature
- Filter: Built in 2pcs
- 5 Platinum coated titanium electrode plates
- Auto cleaning, Auto discharging

Differentiation – Ioncares coolHot vs. Typical Chinese Products

Feature	Ioncares coolHot	Typical Chinese Products
Design	Ultra-slim LCD + Modern Design (Maximizes space efficiency)	Bulky and outdated appearance
Weight / Size	Ultra-lightweight & Compact (Easy to carry for sales)	Heavy and difficult to install or transport
User Convenience	One-touch hot&cold swith Real Time water quality display	Basic button functions only
Durability & Supportrt	EU-certified, stable durability, Reliable after-sales service	High failure rate, limited service support
ODM Adaptability	Customizable design, packaging, And manual per partner request	Unstable quality and delivery timelines for ODM

Designed ONLY for Your Company: The Ultimate All-in-One Hot & Cold Water Ionizer

Direct Plumbing
with Tap Water

Auto
Cleaning System

Cold Alkaline Water
Hot Water/Purification Function

Advantages for Your Sales Channel

Easy Demo	Compact Size & Intuitive one-touch functions
Premium Feel	Modern look, small footprint – ideal for European consumers
ODM Ready	First partner advantage – possible region exclusivity
Fast Lead Time	Ready to ship models available from Sep
Scalable Business	Joint branding and expansion flexibility

Demo units available upon request

ODM agreement with priority terms for early adopters

MOQ and pricing to be discussed based on market scope
