# ABOUT DAILY MEAL

"Daily Meal" operates the brand **Bokthing**, guided by the motto "**Eat Healthy Every Day**"

Bokthing is dedicated to developing healthy dietary management products, specializing in high-protein and low-calorie snacks and baked goods.

Specialized in developing products suitable  
**for health, diet, and low-carbohydrate meal plans.**

All plant-based protein ingredients are sourced from  
**Non-GMO** materials

**Product certifications:** HACCP, U.S. FDA, FSSC 22000

# DAILY MEAL

## CORE VALUES

### 01 Careful

We provide healthy foods that can be enjoyed in everyday life for those who require nutritional support, including individuals with diabetes.

### 02 Original

Our Food Engineering and Gut Microbiology R&D team develops proprietary recipes

### 03 Sustainable

We are committed to using purely plant-based ingredients to promote a sustainable lifestyle

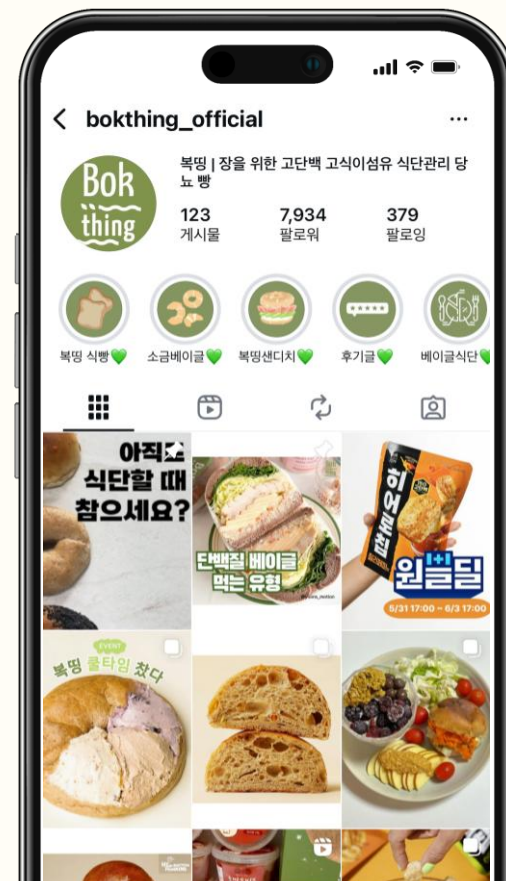

# OUR BRAND BOKTHING

Bok  
thing

Bok(stomach) + thing

Trademark applications filed in  
Korea and the United States

We research and develop plant-based, high-protein  
products that are both gentle on digestion and delicious

Instagram

# ABOUT PRODUCT

## High-protein, low-fat snacks

Delicious high-protein, low-fat snacks you can enjoy with peace of mind whenever you crave a treat after a meal

## High-protein, low-sugar bakery

Soft and wholesome meal breads, ideal for blood sugar management and dieting, enjoyed without worry

## Additive-free spread

A rich and nutty spread made solely from ground almonds and peanuts, with no added sugar, oils, or flavorings

# WHO IT'S FOR

## Individuals on a diet

"When you carefully check the ingredients, there's hardly anything you can eat. Bokthing offers products with **high protein and low fat, carbohydrates, and sugar** making its protein breads and snacks among the most nutritious choices available!

"When following a diet of chicken breast and shakes, the craving for snacks can be overwhelming, yet there are hardly any suitable options for those on a diet. However, Hero Chips stand out because **they are made with quality ingredients yet taste just as delicious as regular snacks!**"

## Individuals with diabetes

"Even 100% whole wheat breads or rice breads on the market often have high carbohydrate content, which can cause blood sugar spikes. Bokthing, however, can be enjoyed with peace of mind because **it is low in sugars and refined carbohydrates**, so I even send it regularly to my parents. In addition, with its high protein content and satiety, **it is convenient and filling enough to serve as a meal**

## Individuals pursuing a healthy die

"Perhaps because of the flour, I often felt bloated after eating. But with Bokthing, **I feel comfortable even after eating**, which gives me peace of mind. As I try to reduce my flour intake, I consume many protein products, yet some of them contain additives or sugar substitutes."

As I get older, I find it harder to digest dairy products, so I try to seek out vegan options. However, many of them are quite high in fat, so I am not sure how healthy they really are. Bokthing, on the other hand, is low in fat and high in protein, making it truly ideal for **dietary management**"
