

BLOOMING FLOWER

INCENSE HOLDER LIGHT

WOOSM

PRODUCT FEATURE

Filling the space with fragrance and light

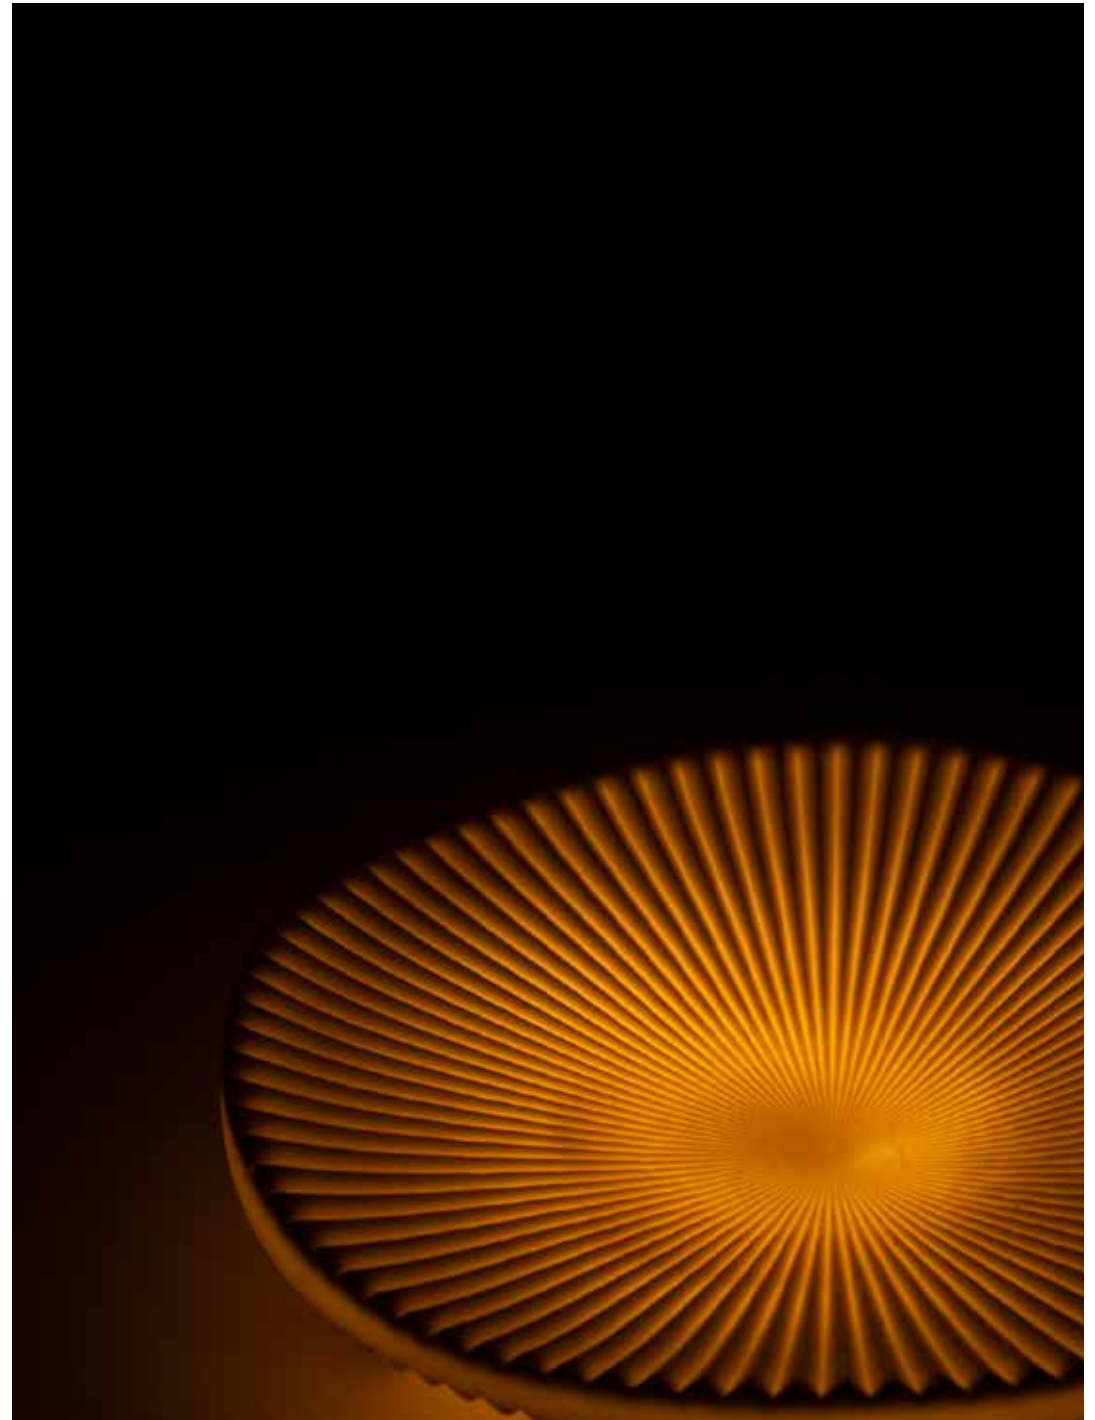

WOOSM's Incense Holder Light is a new concept that was created by combining the functions of the table lamp and incense holder. The incense holder light, which provides an experience of scent and light, is completed as a luxurious art by combining a ceramic light that uses the material characteristics of transmitting light with a metallic incense holder.

Inspired by the beauty of flowers, the unique appearance of the incense holder light creates a sophisticated and unique atmosphere in the space as an object.

LIGHT CERAMIC

Light-weight art

The incense holder light that is thinly
costructed to maximize light transmittance
enables detailed appearance expression
and creates a unique ambience.

VERSATILE

Various usage

In addition to the functions of the incense holder and light, the separated design of dish-type design and the incense holder make available as a display stand and act as a unique object in the space.

FLEXIBILITY

Various sizes of incense choice

The incense holder that has 3 different sizes of holes provide with various sizes of incense selection

PORTABLE

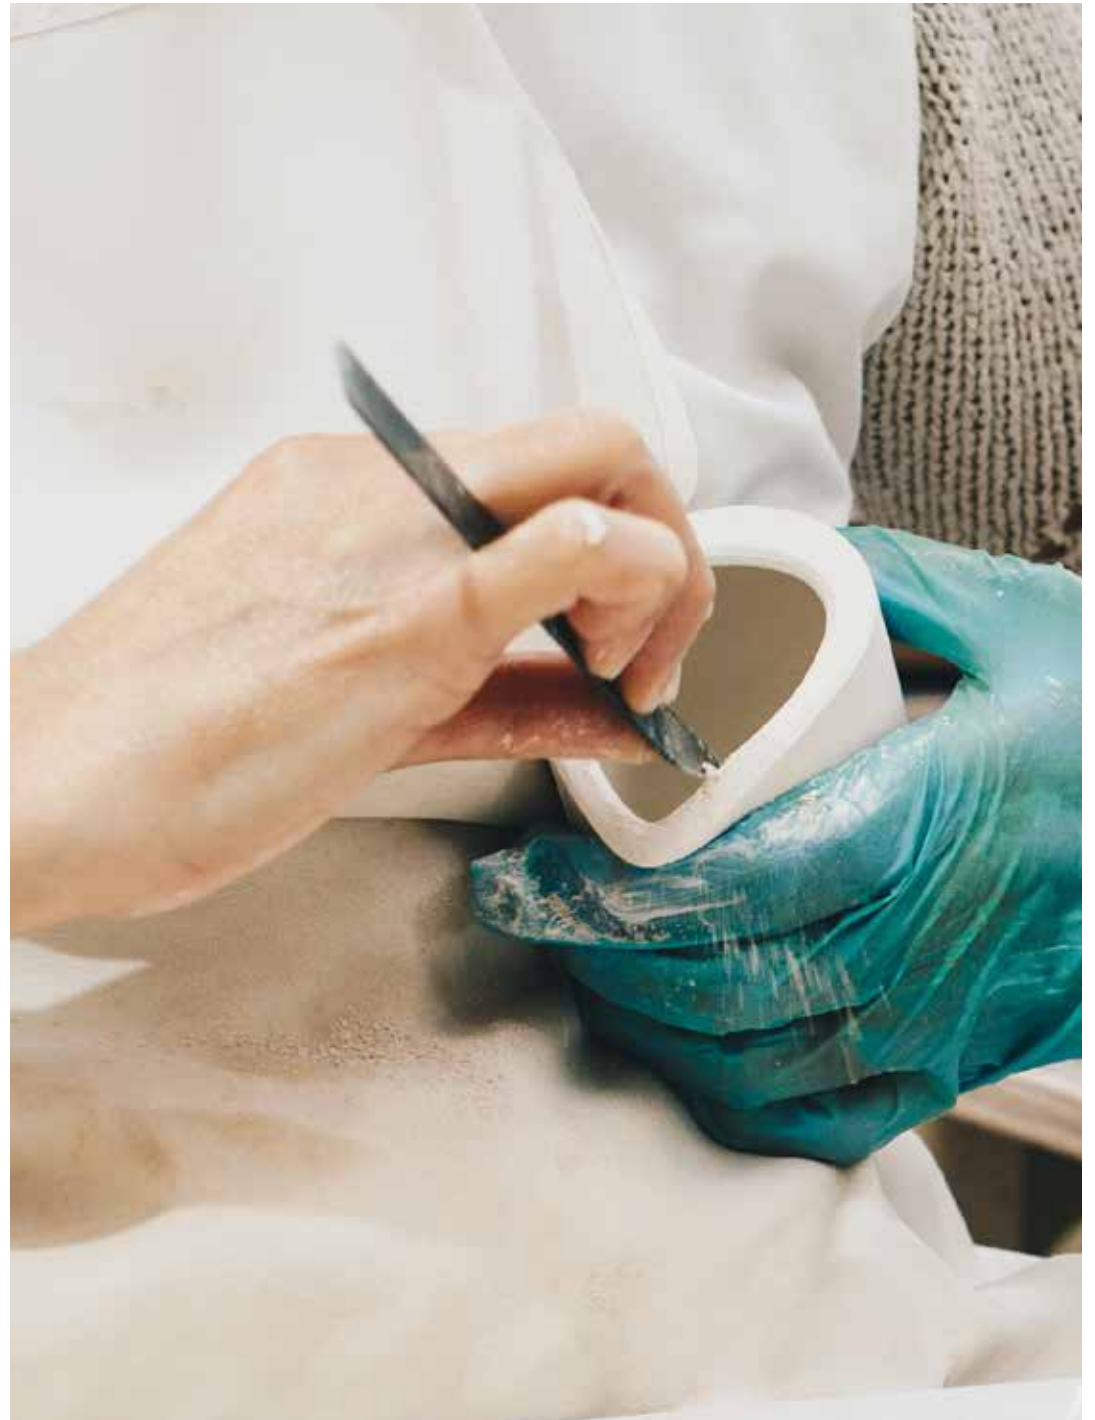

Chargeable light

The incense holder light is designed to be charged with USB, providing portability for use at tables, desks and outdoor camping.

HANDMADE

The completion of delicacy

Each pottery is handmade
with the utmost care for
the best completion
