

Just stick on the mirror or window !
Prevent fogging due to moisture !

ANTIFOGFILM

How to Use

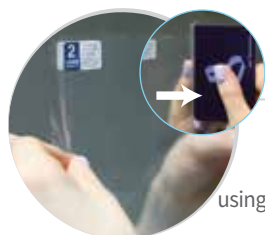

01

Before use, **wipe** the surface of mirror for attaching the product clean.

02

Remove the releasing film where **sticker # 1** is **attached** to expose the adhesive side.

03

After attaching the film on the mirror, remove the water and air layer using a plunger or plastic card.

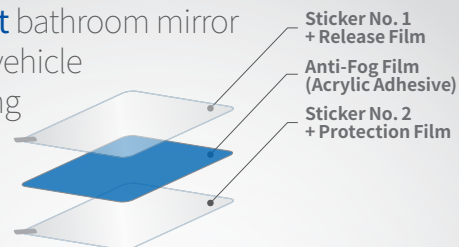

04

Remove the protective film of the coated side with **sticker #2**.

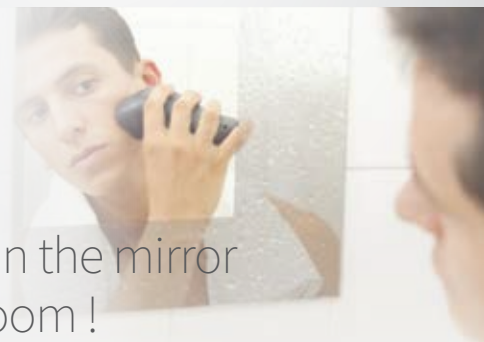

Check Point
