allocco

CERAMIC TUMBLER SERIES

About us >>>>>

Quiet by Nature. Premium by Choice.

True quality does not compete for attention.
It waits to be discovered.

We creates objects meant to be used every day,
and appreciated for years.

Because the most refined choices are often the quietest ones.

The 'allocco' ceramic tumbler series, under NABEEANDOWL,
is crafted from high-quality, BPA-free materials
and designed for outstanding performance,
delivering a better hydration experience.

Ceramic coating >>>>>

ZinCer+ Zinc ion active antimicrobial technology

Zinc ions are released through polymerization technology to form a protective zinc-ion layer on the surface of the water bottle. This layer effectively inhibits the growth and reproduction of bacteria.

The antibacterial effectiveness exceeds 99.9%.

CerCoat+ A high-temperature baking process forms a durable and healthy ceramic coating on the stainless steel surface.

The surface is smooth, non-stick, and easy to clean, with no residual beverage odors. Even dark-colored drinks do not easily stain the surface.

»»»» About us

allocco is a quality management-focused professional company, operating a rigorous quality control system across all stages of production to ensure the highest standards in every product.

From hydro-forming, metal processing, welding, and vacuum insulation to inner finishing, polishing, surface treatment, branding, and packaging, each department works in close collaboration throughout the entire process.

Through this systematic approach, we ensure exceptional quality and a high level of refinement in every final product.

- 1 Powder Coating
- 2 SUS304 Stainless Steel
- 3 Vacuum Layer
- 4 Copper Coating
- 5 SUS304 Stainless Steel
- 6 Antibacterial Ceramic Coating

»»»» TECH

Do technical challenges excite you? They excite us.

For allocco, creating bottles is about more than just manufacturing. We are dedicated to finding the optimal solution for every carefully crafted piece.

We embrace every limitation encountered in the manufacturing process as an opportunity for growth.

This relentless pursuit of innovation is what defines allocco today. Giving wings to your ideas through technology—we believe in those infinite possibilities and continue to create new value every day.

>>>> From Concept to Commercialization

The success of a tumbler is defined by the quality of its design. Turning an idea into a finished product requires a creative and experienced design team. allocco supports the entire journey of bottles and tumblers, from concept development to final delivery into the hands of consumers. Experience allocco's comprehensive solutions designed to transform water bottles into optimized, market-ready products.

>>>> Create Yours

Branded bottles are always an effective way to promote your core business. That's why allocco is here to provide tailored solutions for your promotional projects.

>>>>> **Features**

- Double-wall lid design for enhanced heat and cold retention
- Double-wall stainless steel vacuum insulated bottle
- Made with food-grade 18/8 stainless steel for safe and long-lasting use
- Keeps beverages hot for up to 8 hours and cold for up to 20 hours
- Durable exterior powder coating for enhanced scratch resistance
- BPA-free and phthalate-free
- Ergonomically designed drinking collar lid for comfortable sipping
- Lid with soft rubber strap for a secure grip and easy portability
- Non-glue, detachable anti-slip silicone bottom for safe and quiet use
- Wide mouth for easy cleaning and ice insertion; small drinking opening for spill-free sipping
- Ceramic coating finish available
- Right size to fit most car cup holders
- Electropolished interior that does not retain or affect flavors
- Hand washing recommended for insulated products

Model No.: DW-tumbler600-DW
Capacity: 600 ml
Packing: 25 pcs / ctn
Box Size: 8.5 × 8.5 × 22.5 cm
Carton Size: 42 × 42 × 25 cm
N.W. / G.W.: 8.5 kg / 10.2 kg

Non-slip rubber

Double-wall lid

>>>>> Features

- Straw lid (with straw) — ideal for cold beverages, a must-have for safe driving
- Double-wall stainless steel vacuum insulated bottle
